

Tree Plantation

Trees are precious gift to our life from the nature.They are the green gold on the earth and very important for everyone's life.Some of the importance of trees is mentioned below proving why save trees is save life:

- ❖ Trees are very important source of cleaning and refreshing air(as they produce oxygen and consume green house gases)by filtering and intercepting the airborne particles,chemicals,toxic gases,reducing heat,absorb of carbondioxide and other pollutants like sulphur dioxide and nitrogen dioxide.
- ❖ Trees acts like natural dustbins to the harmful gases in the environment.
- ❖ Trees are source of natural shadow and cool air and most comfortable than the artificial cooling technologies like fan,ac ,etc.

"Someone is sitting in the shade to
day because someone planted a tree
long time ago"
"Plant a tree Plant hope for future"

Plant more trees

Save more trees

Thank you
