

#etmooc Lipdub - “Don’t Stop Me Now”

Thanks everyone for participating in this lipdub project. The votes are in, and we’ve chosen “Don’t Stop Me Now” by Queen. Use [this Youtube Link to listen to the song](#) - hopefully most of you have heard it before.

Overview: As most of you know, lipdub projects have been very popular on Youtube. There are actually several lipdub versions of “Don’t Stop Me Now” on Youtube such as [this one](#). Because the #etmooc community is distributed across the globe, we’ll likely aim at a style similar to the “[Happy Birthday Alec](#)” video that was shared earlier.

Process:

1. There will be a list of lines from the song below. Sign up to the one you’re able to sing or act out (e.g., some of the guitar solos).
2. Let’s try to make sure we have every piece of the song covered. There will also be places in the song where several people would be suitable for the same line. Group shots are welcome. Even considering bringing in people outside of #etmooc (e.g., local community, friends, pets, etc.) Outdoor or indoor shots are welcome, but it would be neat to see things representative of your community if at all possible (Think [Dancing Matt](#)). But, most importantly, is that we get the shots in so that we can put this all together.
3. Record the required length of video for your segment using your webcam, Smartphone, or other video device. It’s a good idea to add at least several seconds on each end of the video and leave the fine cutting to the editor. You may even wish to sing the line before and after your chosen line.
4. Beside each line, there is a specific code. **This code is extremely important when you are uploading and naming your video.** Please name your file in the follow way:
 - a. identity yourself (e.g., first name, full name and/or twitter name) in the first part of the filename.
 - b. use your geographic location in the second part of the filename.
 - c. use the specific line code as the third part of your filename.
 - d. separate the three parts of the filename with dashes.

- e. For example, if I am singing Line 7, I might name the file AlecCouros-ReginaCanada-Line7.mpg (the .mpg extension may differ). Or, if I wanted to use my Twitter name instead, and I was singing line 14, I might call the file @courosa-ReginaCanadaLine14.mov.

5. Upload the video file to <http://www.dropitto.me/courosa> - password is etmooc.
6. If you are using an iOS or other tablet device and you find it difficult to use the method outlined in #4, email the file to couros+etmooc@gmail.com but be sure to place the filename information provided in step 4e in the header of the email.
7. Let's have fun with this! Show some of that joy and exuberance that many of you have shown thus far. I hope that this results in a great bonding experience, more familiarity with community members, and an artefact that helps to represent the experience of #etmooc.

Lyrics: (Pick 1 or 2, possibly more depending on uptake)

***** Please have your video uploaded on or before Sunday January 27 (sooner if possible)**

CODE	LYRIC	VOLUNTEERS - ADD YOUR NAME HERE!
Line1	Tonight I'm gonna have myself a real good time	George Couros
Line2	I feel alive	George Couros
Line3	and the world I'll turn it inside out yeah!	@Doremigirl
