

Information about the author

1. Surname, first name:

Baigelova Aigul.

2. Position, academic degree, title:

candidate of economic sciences, docent (associate professor).

3. Education:

- 1982-1986, Almaty institute of national economy (Narkhoz University), faculty of economics and labor rationing, specialty – "Labor Economics", qualification "Economist", diploma PV № 070319 dated 07.07.1986;
- diploma of candidate of economic sciences № 0007799 dated October 20, 2000, HAK MES of the RK;
- certificate of associate professor in the specialty "Economics" № 0005957 dated September 10, 2004, HAK MES of the RK.

4. Area and directions of research, including participation in scientific projects with a brief description of the results of the study:

Research area and directions:

- research in the field of labor market, labor resources, innovation and digitalization of the economy, economic growth, etc.

Participation in scientific projects:

- 2005-2008, lead performer of the Project of scientific and fundamental research from the Ministry of Education and Science of the Republic of Kazakhstan "A new paradigm of state management of the economy globalization of reforms (strategy, institutions and mechanisms)".

Research results:

the strategy of public sector development, mechanisms and institutions of effective public management are substantiated. Scientific and practical recommendations on the dynamic and safe development of the economy of the Republic of Kazakhstan in the interests of increasing the country's competitiveness in the world market are presented. The paradigms of public administration, correlations of supply and demand, imperatives of efficiency in the public sector are generalized. The provisions of the "Good Governance" paradigm and the concept of public sector development, including the conceptual, instrumental apparatus, are considered. On the basis of a comparative assessment of administrative reforms of various states, trends in global governance have been identified. Contradictions of the global network of state management in Kazakhstan were used to form a management strategy aimed at human development.

- The executor of the subsection "Labor market: trends in development and mechanism of its regulation" of the applied research project № 5517 of the Scientific and technical information of the RK dated 10.02.2015 "Sustainable growth of the economy of Kazakhstan: trends and mechanism of its increase".

The results of the scientific research are:

aimed at improving the mechanism for ensuring the sustainability of the economy, related to the justification of programs for the development of small and medium-sized businesses, infrastructure, which will contribute to increasing economic achievements in Kazakhstan and improving the economic security of the country, and can also serve as a theoretical and methodological basis for solving this problem.

- 2019-2022, leading performer of the fundamental research project "Modern problems of socio-economic development of the regions of the Republic of Kazakhstan, the Republic of Belarus and the Russian Federation", State registration № 0119RKI0128.

Research results are:

aimed at identifying the main problems of socio-economic development of the regions of the Republic of Kazakhstan, including the organization of logistics services, the use of budget funds by the regions and the activities of SMB in the EEC countries. The main directions of state support and creation of favorable conditions for the development of SMB in the EEC are identified and the need for the use of modified approaches to the management of business entities for their sustainable development in the conditions of digital transformation of the economy is substantiated.
