Then it's time to visit paradise!

The Paradisio Orbital, a Omega Hotel Group hotel, is only a hop, skip, and cloud-jump away!

This fully-equipped, low-orbit, luxury satellite resort is made to indulge your every desire. Or, for the more adventurous, there's Paradise After Dark, an adults-only world of indulgence letting you discover just how wild it gets at 1000 kilometers.

With flights leaving from most major spaceports, Paradisio offers packages ranging from weekend jaunts, to months-long relax-cations.

So don't let earthbound life ground you! Look up. Taste paradise.
