"Dear District Attorney Stollsteimer,

I am contacting you to respectfully request that you make a public commitment to your constituents that your investigation of the death of Fanta Bility will fully address all aspects of this tragedy, fully hold responsible all persons involved, and address all issues of law enforcement protocols and training that contributed to it. We ask that you explicitly assure your constituents that all relevant evidence regarding all aspects of this case are being provided by your office to the Grand Jury, and that the Grand Jury is instructed to follow all such evidence wherever it may objectively lead, without any preordained assumptions or outside influence. Understanding the constraints necessary to protect the investigatory process, we ask that you provide regular updates on the progress of the investigation, to assure your constituents that these commitments to full and unconstrained justice are upheld.

Fanta Bility could be the innocent child of any of your constituents. The outcome of this investigation must provide both justice to her family and assurance to all of us that such a tragedy can never happen again, by addressing all of the root causes, no matter how difficult. This is the kind of District Attorney we elected you to be. We expect you to uphold the standard you set for yourself, regardless of the arduous political decisions it requires.

Sincerely,”

“As a concerned citizen of Pennsylvania, I am contacting you to respectfully request that the Office of Attorney General Josh Shapiro open an oversight investigation into the tragic shooting death of 8-year-old Fanta Bility by the Sharon Hill Police Department. This tragedy occurred when three police officers fired over 25 shots into a crowd of innocent bystanders, largely children, who were leaving a football game at their local high school, Academy Park. The names and photos of the officers have not yet been identified.

According to statements by the Delaware County District Attorney, the gunfire was initiated by police in response to shots fired by two teenagers at the opposite end of the block. The officers’ actions which killed Fanta and injured three other young people, including Fanta’s older sister, are of grave concern to our communities. We need to know what led the police officers who are sworn to protect their community to fire into a crowd of innocent bystanders, whether the answer includes errors in judgment, training, or law enforcement protocol at the local or national scale.

This investigation needs to follow all facts, regardless of where they may lead. Unfortunately, over the past three months since Fanta’s killing, there has been a disturbing lack of communication and transparency from the local officials, Sharon Hill Borough Council, Southeast Delco School District, and Delaware County District Attorney Jack Stollsteimer. While public officials have the responsibility to protect the integrity of the investigation, they also have a responsibility to reassure their constituents and inform the public of the progress that can be disclosed. I ask that your office take all appropriate oversight measures to assure that full and unrestrained justice prevails in this case.”
