

NPFL087 #5 Phrase-Based MT

Shared doc for inverted class in summer 2023/24

Here we collect notes for the topics discussed on April 5, 2024.

Attendance:

- Please add your name:
 - (Use a unique nickname you disclose to me by e-mail if you want to stay private.)
 - Ondrej
 - Nam
 - Ulvi
 - Maxim
 - Dasha
 - Xiao

Questions by students:

- enter your question, include your name/nick
- Nam: Can you explain again the scores in slide #9, especially the lexical weighting part.
- Maxim: can we enforce a target sentence to be of a required syntax structure when generating using a (neural) statistical model (considering that the system is also capable of POS tagging)?

Questions by the teacher:

- Here I will grill you if time permits. :-)

Class work / homework:

- Nothing.
