We are writing you concerning state funded organized stalking and electronic harassment and torture and requesting an investigation and an end to these unconstitutional human rights violations. There are thousands of victims complaining worldwide, the vast majority being American , of being targeted with methods of electronic warfare and psychological operations carried out by intelligence communities, military, local police and civilians.

Many are reporting that they are being stalked and hit with weapons which create various painful and annoying sensations in the human body as well as having voices projected into their heads for years on end. Military has already admitted to having these capabilities, it has advanced significantly since then and has been deployed against an innocent population.

In the 70's there was a congressional investigation into mind control techniques in use by the CIA at the time and all such experiments were ordered to end, this did not happen however and they are now worse than ever.

Legislation has been put in place in some states but is yet to be enforced due to the high tech nature of these crimes and the massive wall of silence from federal and state governments which wishes for these abuses to continue.

Several years ago an attempt was made by informed politicians in government with H.R. 2977 as effort to put an end to the use of these weapons altogether but votes were not favorable, either due to ignorance or willful collusion.

Russia has already enacted such laws and banned them outright as weapons of mass destruction.

Perusal of the materials provided here as well as a quick search across the internet will verify just how widespread this program is. It isn't coincidence and now with professionals and military personnel coming forward it is deniable only by those who utterly disregard the Constitution, laws and the safety of this nation and its people. Since the murder of Aaron Alexis and the other victims of the Navy Yard shooting it is now obvious that this program is more than dangerous, it is deadly, and if something isn't done all that can be expected is more suffering. We want our freedom back and we refuse to accept a society which is complicit in such murderous atrocities. My family and I are and have been (MY DAD AND DAUGHTER MURDERED) TORTURED ON AMERICAN SOIL IN WHAT SHOULD BE THE SANCTITY OF OUR HOMES BY GOVERNMENT, CORPORATE, PUBLIC SERVICE AND PRIVATE SECTOR ACCOMPLICES, CALLED GANG STALKING, covert, clandestine & shadow group programs WHICH IN MY CASE HAVE AND DO UTILIZE ELECTRONIC WEAPONS in violation of Human, Civil Rights AND TORTURE TREATIES!

The U.S., Congress approved a bill proposing the ban of mind control technologies http://thomas.loc.gov/cgi-bin/query/r?c107%3Achemtrails . But this was only for a very short period of time. The bill was then changed, and the ban of those technologies was left out of the Space Preservation Bill. Neither Congress nor the president made an effort to ban mind control weapons. The European Parliament reacted as well to the launch of the HAARP system construction, calling for a ban on the manipulation of human beings. The resolution was passed after the testimony of the Nick Begich, author of the book Angels Don't Play this HAARP. This Bill MUST BE REINTRODUCED, to include the earlier version IN THE HOUSE OF
