# Mosyle Mobile Manager: Student Self Checkout

Installing Teacher Approved Apps

Student iPads will have core student apps installed on the device. Users now have the ability to choose to install other apps through Mosyle's self-checkout system. **Only install apps your teacher instructs you to install.** Space is limited on your iPad.
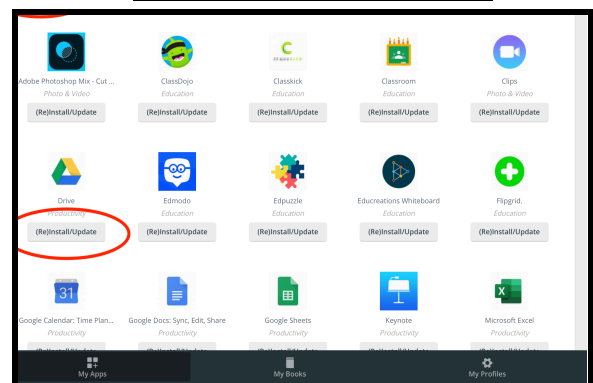

Step 1: Open the Mosyle Manager app.

Step 2: Click on the dropdown menu All Categories. Select "Self-Checkout".

Step 3: Click the install/update button for the apps your teacher tells you to install. Once you have selected your app of choice, the app will automatically start to download on your device.

Step 4: Close the Mosyle Manager App.

Updating Apps

If an app isn't working correctly, students can try to manually update the app. Otherwise, apps will be automatically updated by Mosyle.

Step 1: Open the Mosyle Manager app.

Step 2: Click the install/update button for the app(s) needing to be updated. Apps will begin to update.

Students can also update all apps by clicking update in the upper right corner.

Step 3: Close the Mosyle Manager App.
