

The view in html looks great, thank you very much, is it possible to remove this black border around the page?

The image shows a web browser view of a 'Hospital Transfer Form'. The form is enclosed in a red rectangular border. At the top right is the 'crg Medical Services' logo with the tagline 'Relationships built on trust'. Below the logo, the text 'CONFIDENTIAL INFORMATION' and 'Hospital Transfer Form' are displayed. The form contains several input fields: 'From (Station name)', 'Date', 'Time (am/pm)', 'Custody Sgt', and 'Custody ref number'. A section titled 'Section A - Patient Details (TO BE COMPLETED IN ALL CASES)' is highlighted with an orange background. This section includes fields for 'Title', 'Surname', 'Forename', 'DOB', 'Age yrs. old', 'Gender (circle)' with 'M' and 'F' options, 'Postal Address (no & street)', 'Post Town', 'County', 'Post Code', 'GP (if known)', and a large text area for 'Reason for transfer (nature and cause of injury, any treatment received in custody prior to transfer)'.

Also when we try to convert this html back to Docx, the final docx document looks like this:

The image shows a Microsoft Word document titled 'Hospital Transfer Form'. The document is displayed within the Word application window, which includes a ribbon with tabs for 'Paragraph', 'Styles', 'Editing', 'Voice', 'Editor', and 'Add-ins'. The form content is contained within a rectangular box. At the top right of the form is the 'crg Medical Services' logo. Below the logo, the text 'CONFIDENTIAL INFORMATION' and 'Hospital Transfer Form' are displayed. The form contains several input fields: 'From (Station name)', 'Date', 'Time (am/pm)', 'Custody Sgt', and 'Custody ref number'. A large orange rectangular area represents the 'Section A - Patient Details' section, which is currently empty. Below this orange area is a large white rectangular area for the 'Reason for transfer' text.
