ABSTRACT

*Abstract must be written in English with 12 pt Times New Roman font, single spacing, italic, justify, which consists of max 250 words, objectives which contain: the aim of the study, the method if carrying out specific research without description, **the findings/novelty of the main writing** (research results).*

A. Introduction

The introduction should be clear and provide the issue to be discussed in the manuscript. Before the objective, authors should provide an adequate background, and very short literature survey in order to record the existing solutions, to show which is the best of previous researches, gap analysis to show the scientific merit or novelties of the paper and purpose of the research. At the end of the paragraph, the

author/s should end with a comment on the significance concerning identification of the issue and objective of the research.

B. Method

The method is optional for original research articles. This method is written in descriptive and should provide a statement regarding the methodology of the research. This method as much as possible to give an idea to the reader through the methods used. This Method are optional, only for original research articles.

C. Finding and Discussion

This section is the most important section of your article. The analysis or results of the research should be clear and concise. The results should summarize (scientific) findings rather than providing data in great detail. Please highlight differences between your results or findings and the previous publications by other researchers.

Sub-heading of the discussion

Following main headings should be provided in the manuscript while preparing. The separation between main headings, sub-headings and sub-sub headings should be numbered in the manuscript with following example:

Sub-heading of the discussion

Tables and Figures are presented center and cited in the manuscript. The figures should be clearly readable and at least have a resolution of 300 DPI (Dots Per Inch) for good printing quality. Table made with the open model (without the vertical lines) as shown below:

Table 1. Online Loans that are Still Active on The Playstore an Website

Platform	Developer	Url Playstore/Url App
