

Hello, and welcome to Augmented reality!

If you are reading this, you have taken an interest in participating within 'Augmented Reality'.

Below you will find all the information you need to know. Best of luck, players!

Augmented Reality Discord Server - <https://discord.gg/vneFaBQytV>

RULES

- Be kind to everyone, even if you don't agree with their opinions.
- This is an editing challenge/game for fun, so you are able to use ANY editing material you want (e.g. animash, non/disney, Anime, 3D animation, liveaction, etc)
- This is an **ELIMINATION GAME**. We need players that understand this and won't be butt hurt about being eliminated.
- To be a player, you will need to be semi-active online, and should you need to drop out of the game, for any reason, please just let myself or a reality guardian know, don't just ghost.
- Discord is required

How This works

- Every round there will be a call, where we will list out the requirements of the round. Each round will usually be a style of mini edit (roughly 30 seconds).
- You will have a set time to finish your challenge and upload it to your channel (approximately a month per challenge, but extensions can be given with valid reasons)
- At the end of a round;
 - The winner is chosen by points given (points are discussed in each round call)
 - The audience will also choose a fan favourite (They are safe from elimination this round)
 - The winner will choose 2-3 people to put up for elimination, the audience then votes on who they want to stay or leave the game
- Audience votes will take place on discord also

- **PLEASE NOTE** -

Not completing a challenge may result in you being eliminated. This is why this game also requires you to make friends and alliances where you can ;)

REALITY GUARDIANS

Reality guardians watch over the game, enforcing any rules. They are also the distributors of points within rounds.

PARTICIPATING

If you wish to be apart of this as a player, watcher or reality guardians please fill out the form in the discord server

ALLIANCES

This game is editing focused BUT has friendship and alliance elements, making deals within some bounds are very much allowed (e.g. I won't eliminate you if you don't eliminate me, etc) However, this may make you a target to others that don't have alliances.

Password is your favorite icecream flavour

Alliances are not bound within the Augmented reality rules though (e.g. if person A and person B aren't voting for each other and then B suddenly votes for A, Augmented reality won't punish B for their break in alliance).
