

CA PHOTO CUBE EXAMPLES

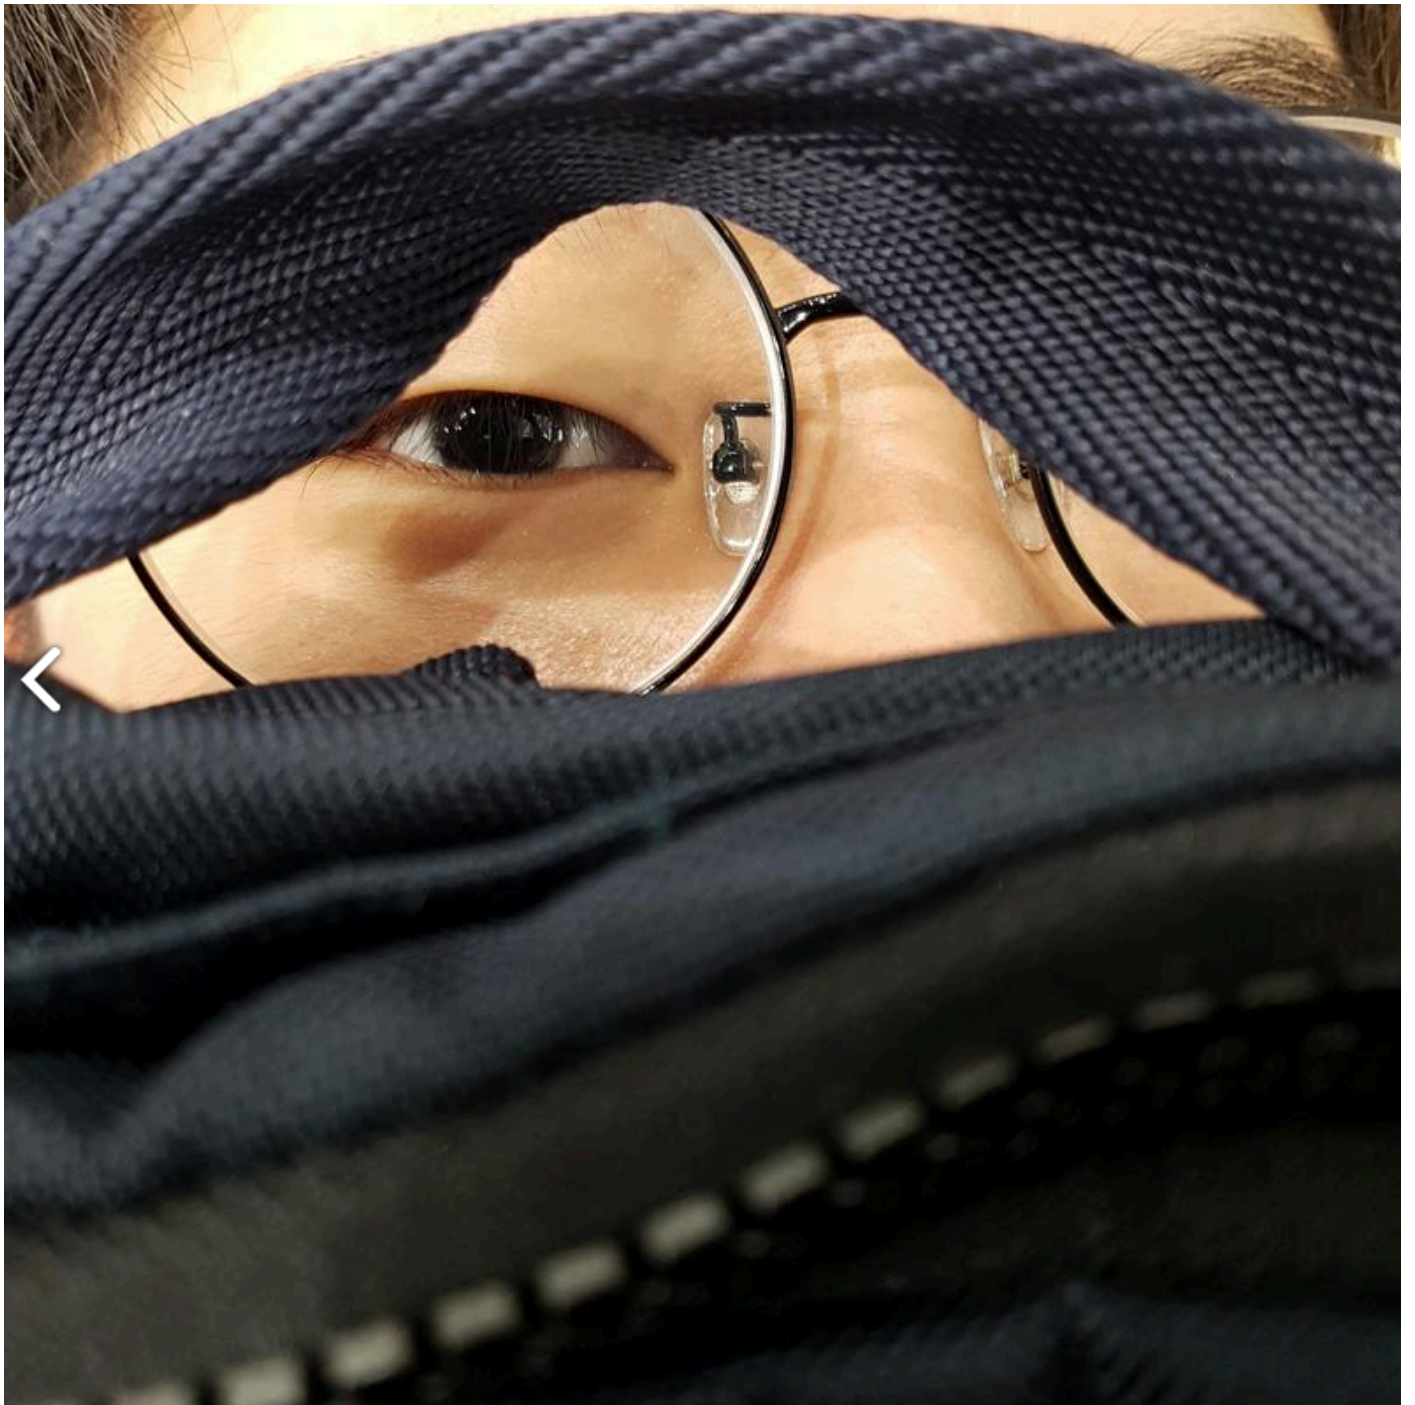

GOOD PHOTOS

*Creative angle, good composition, and creative pose.
Showing at least half of their face is okay.*

Creative Action Pose

Good use of framing

Good rule of thirds, foreground, and angle creativity

Creative use of light

Creative use of lines and pose

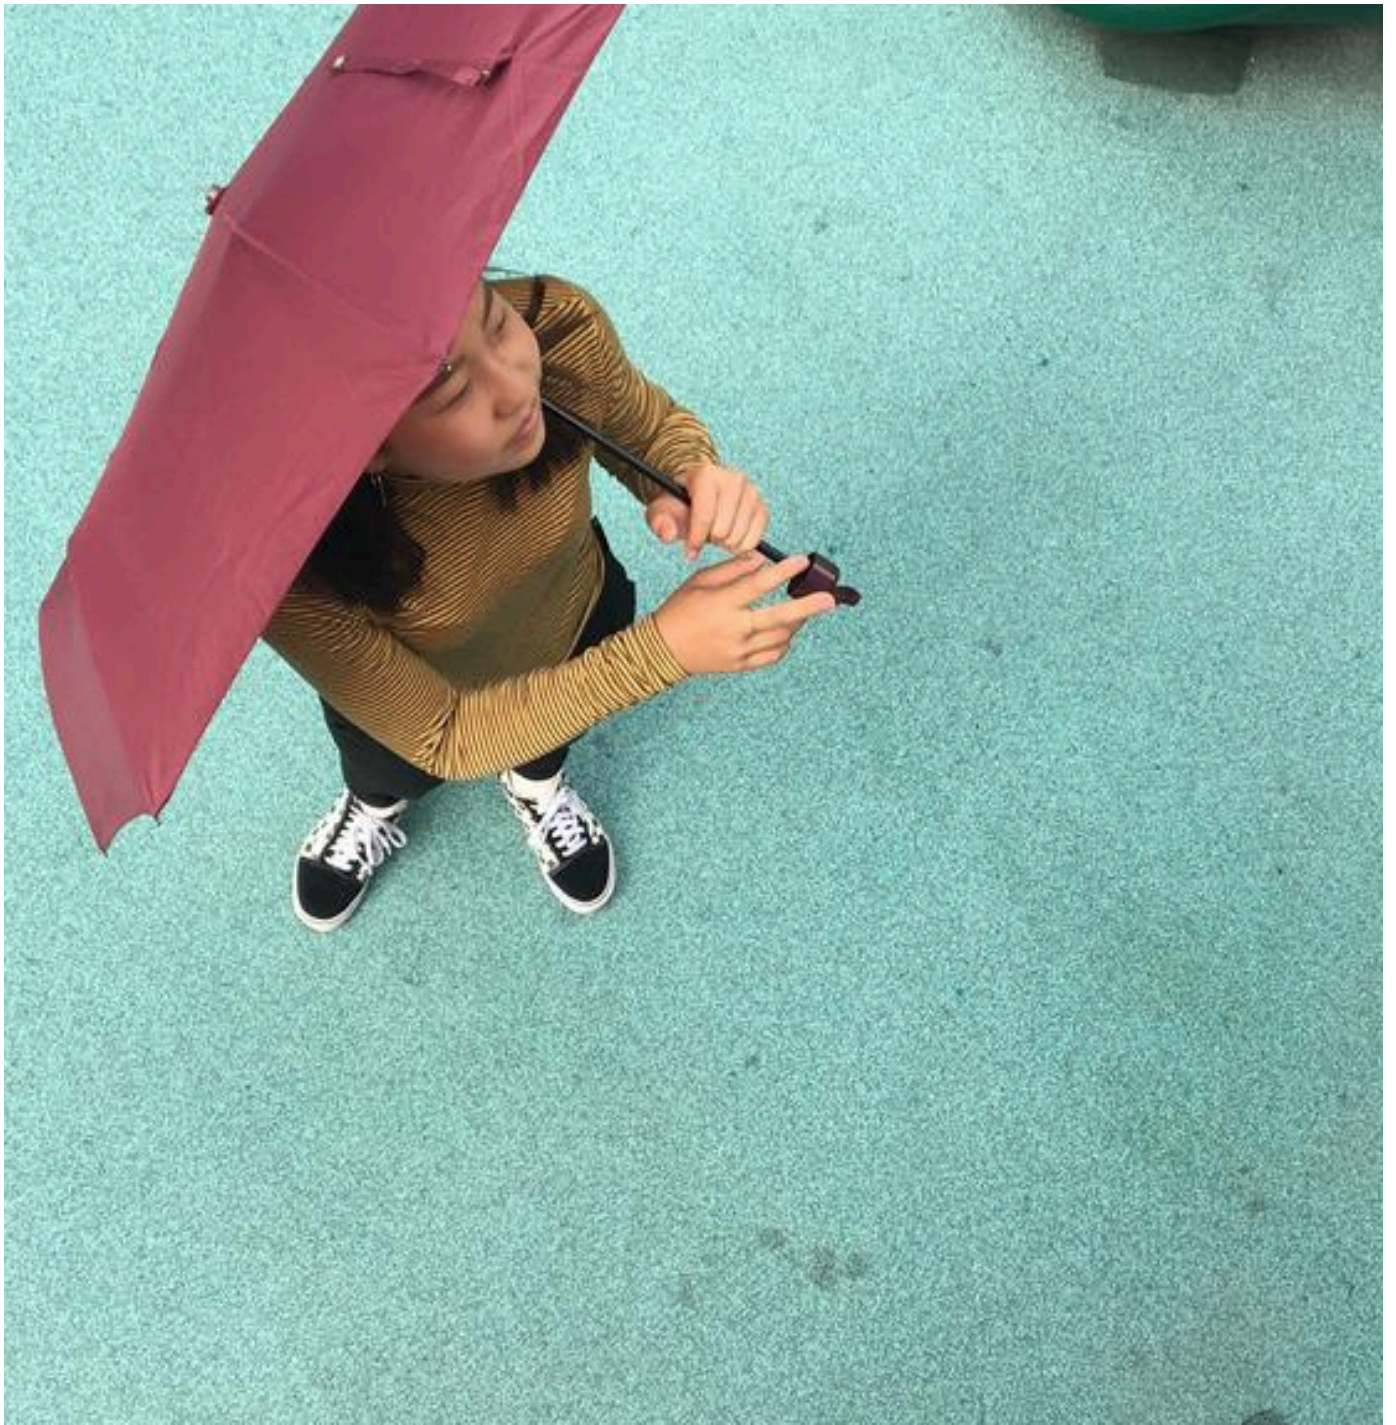

Good expression, angle, and background

Good lighting, clear, & creative colors

Creative pose with a creative good low angle

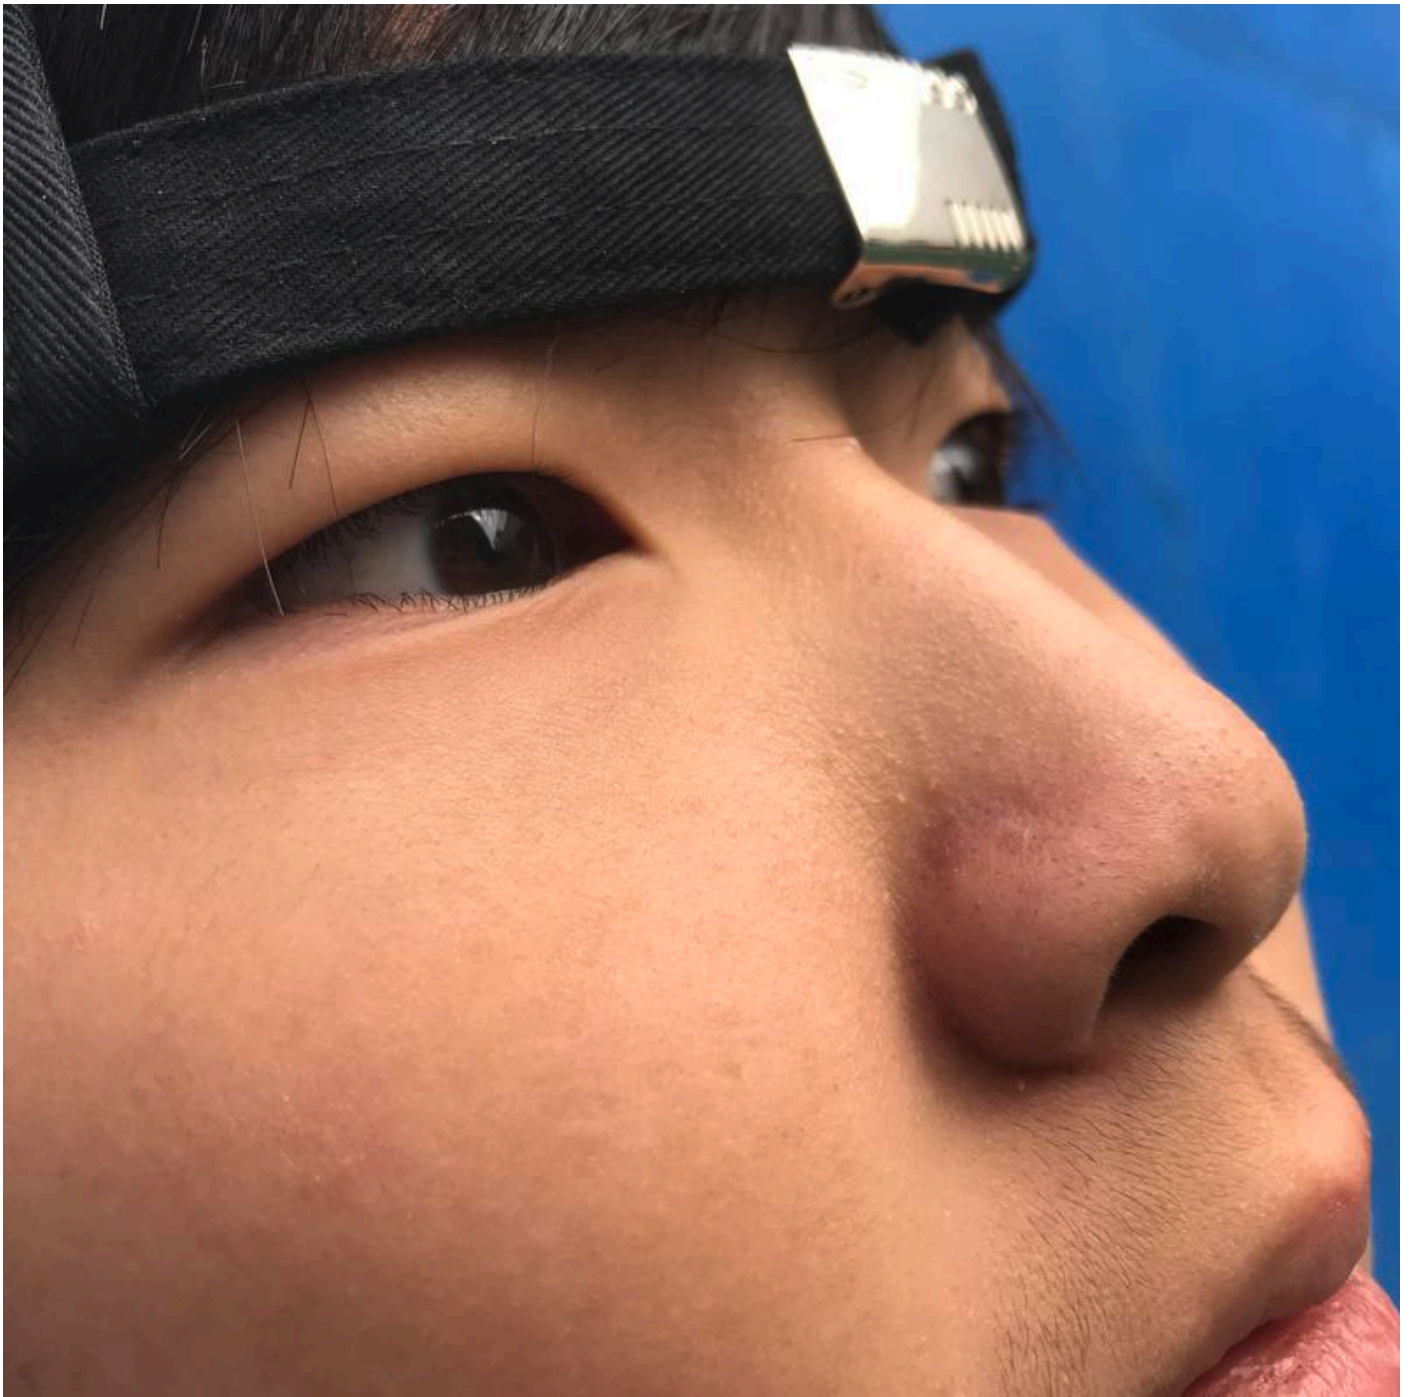

Good contrast and pose

Good angle and matching props' color with background color, good lighting

Good use of lines, creative pose, and angle of his foot

Good closeup lighting and use of a hat

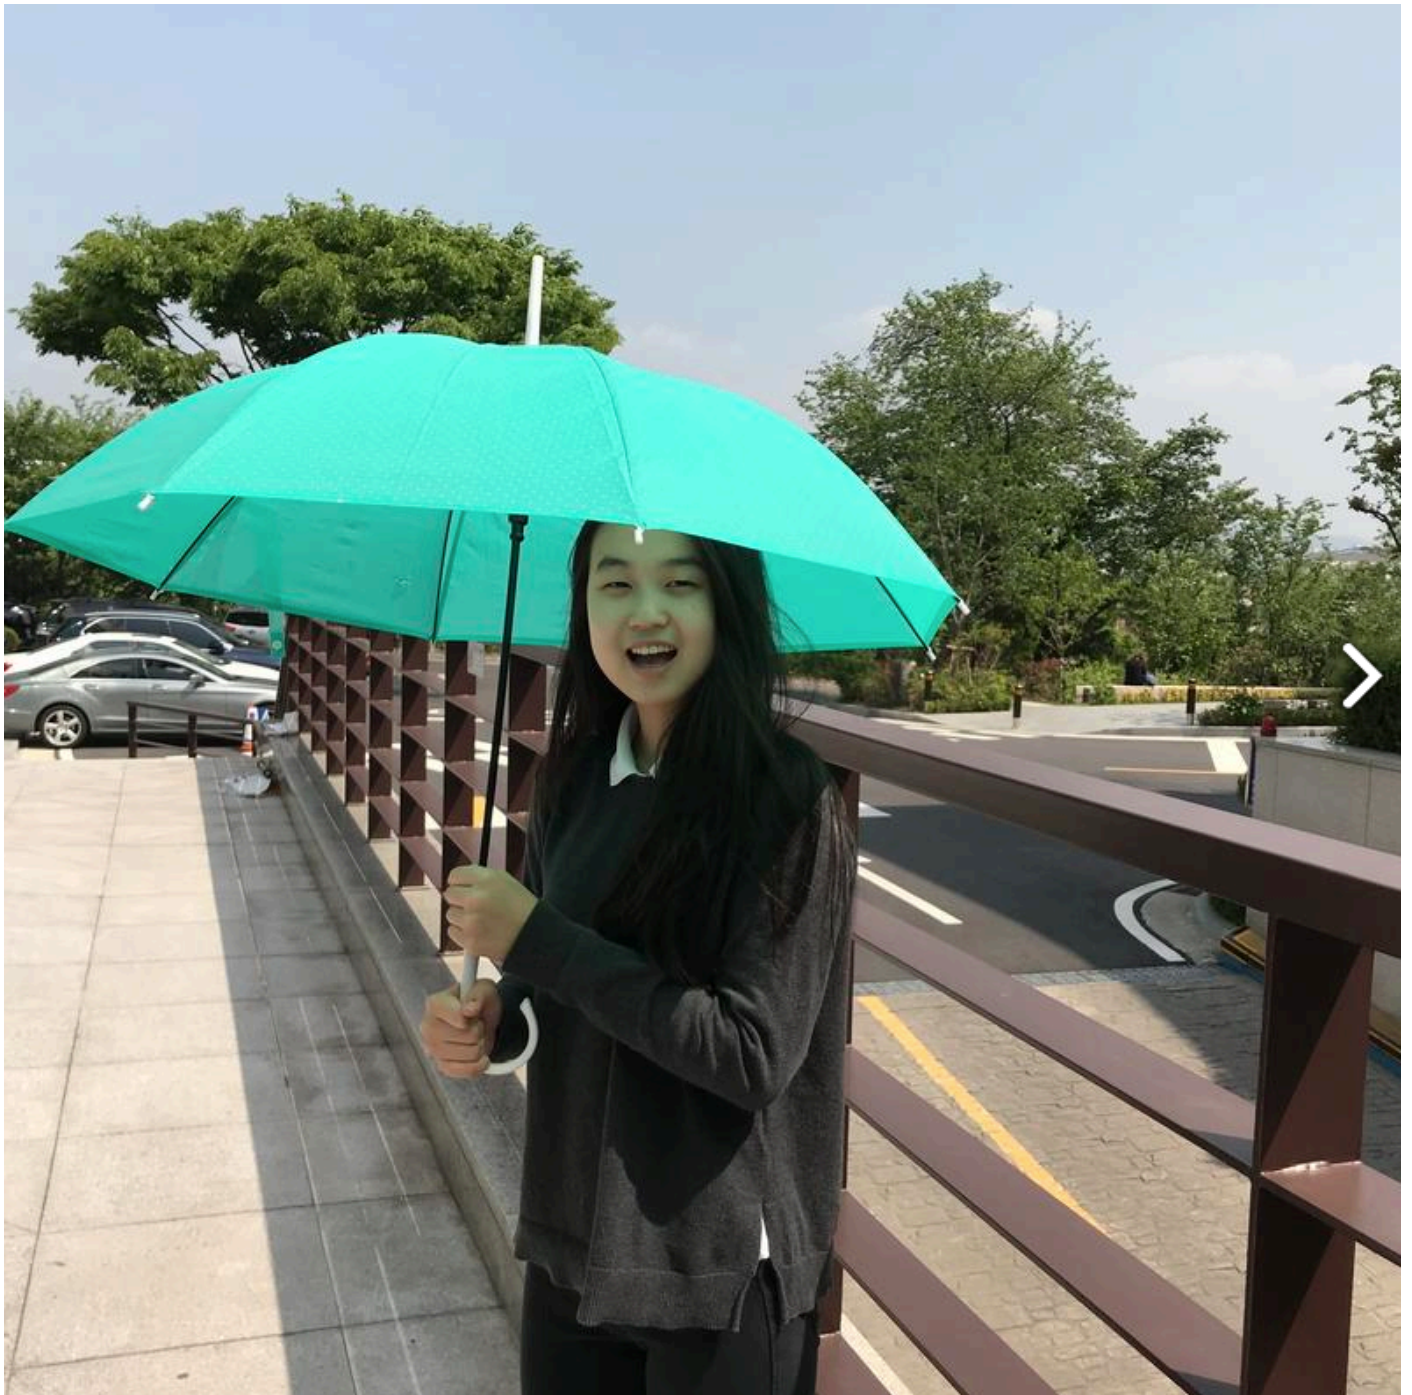

PHOTOS to IMPROVE

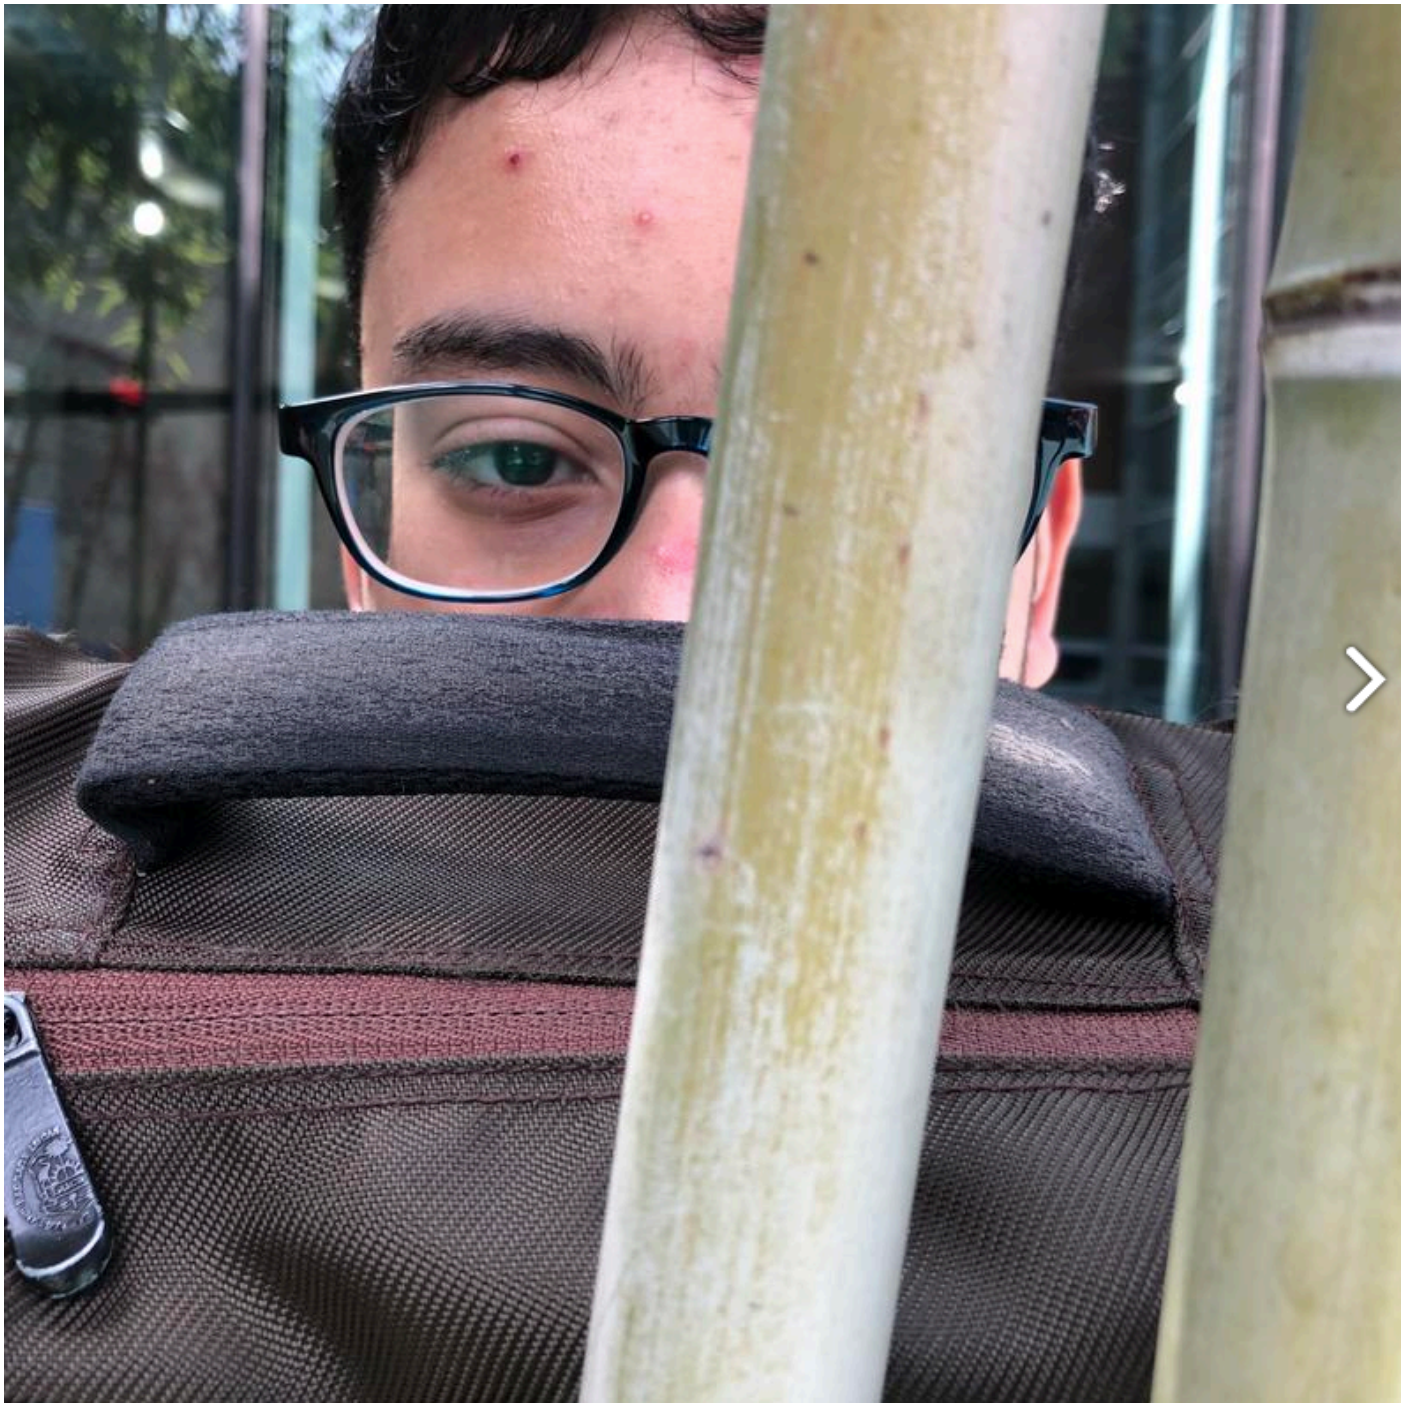

Student's face should always be in focus

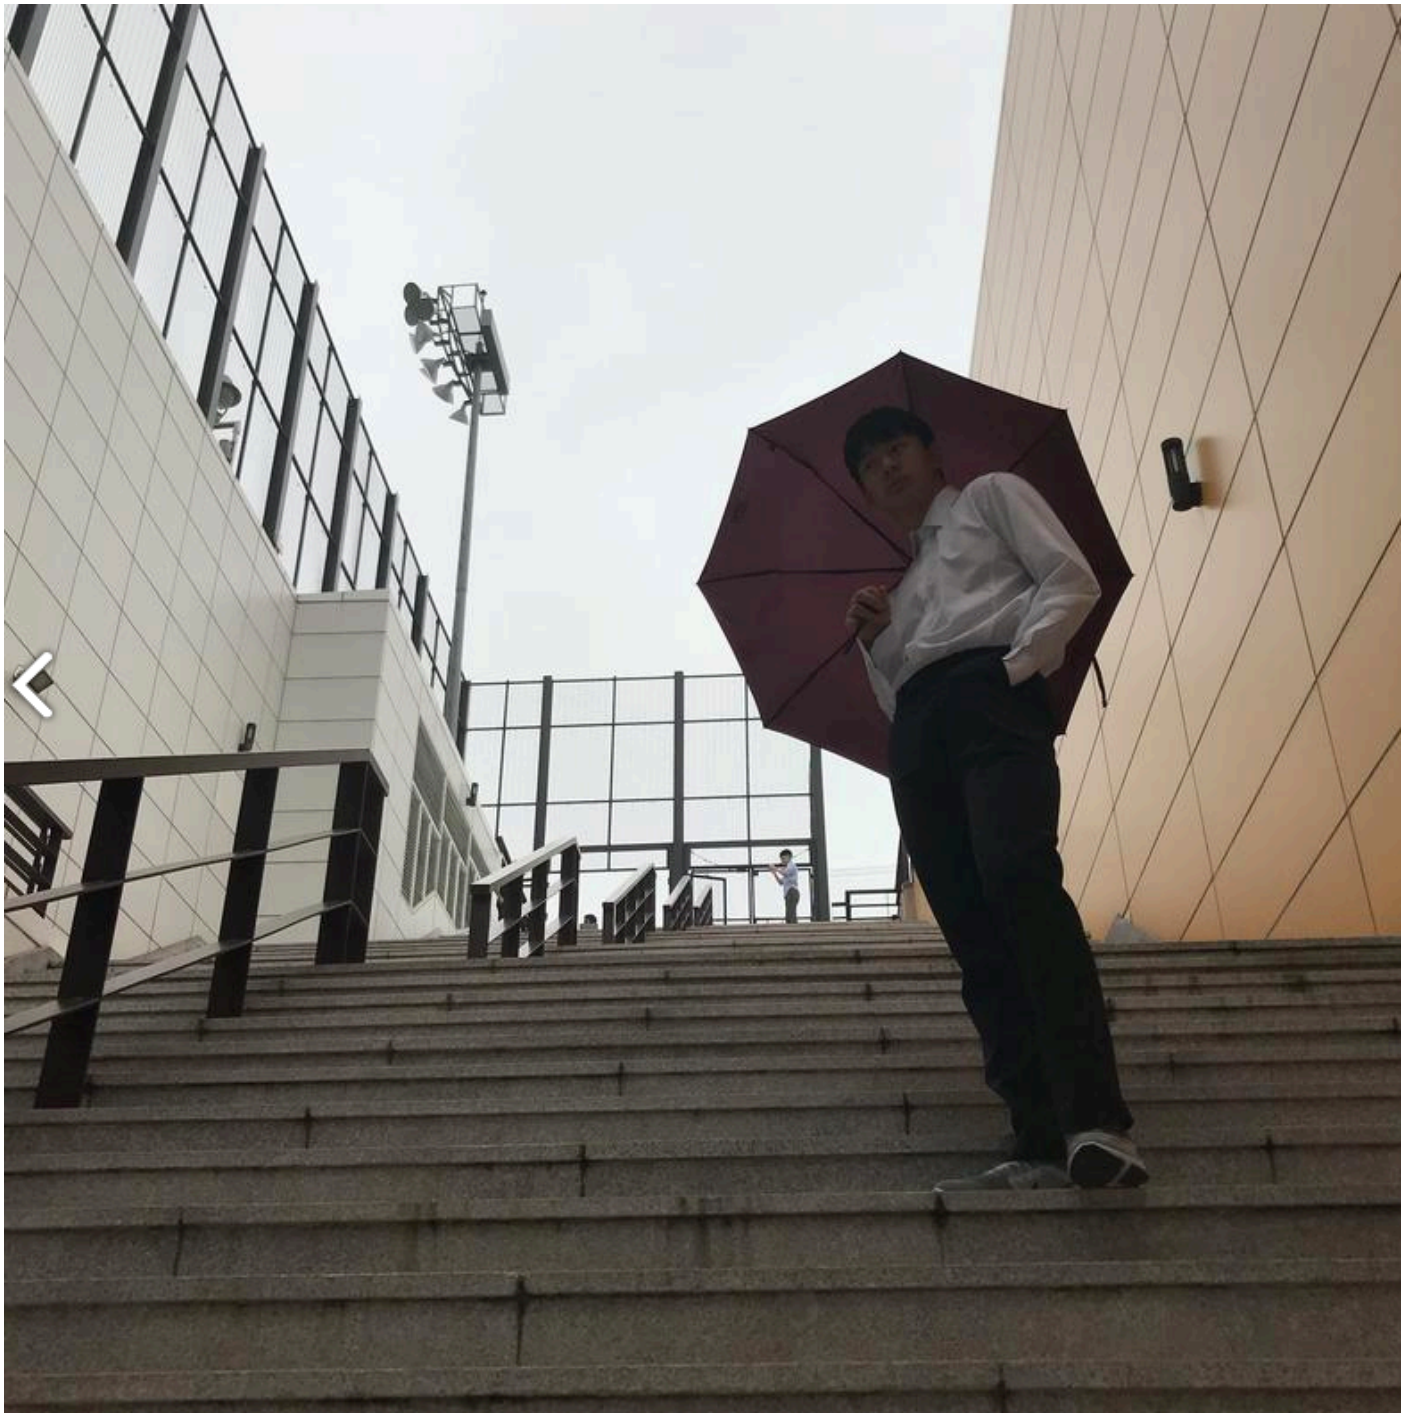

Too busy and lines in front of his face

Composition looks off and photo pose too normal with distracting car background

Good use of foreground

Too dark

Too far away

Very creative pose! But should not have a tree coming out of their head or people in the background.

Creative pose but composition is off

Composition off and too normal

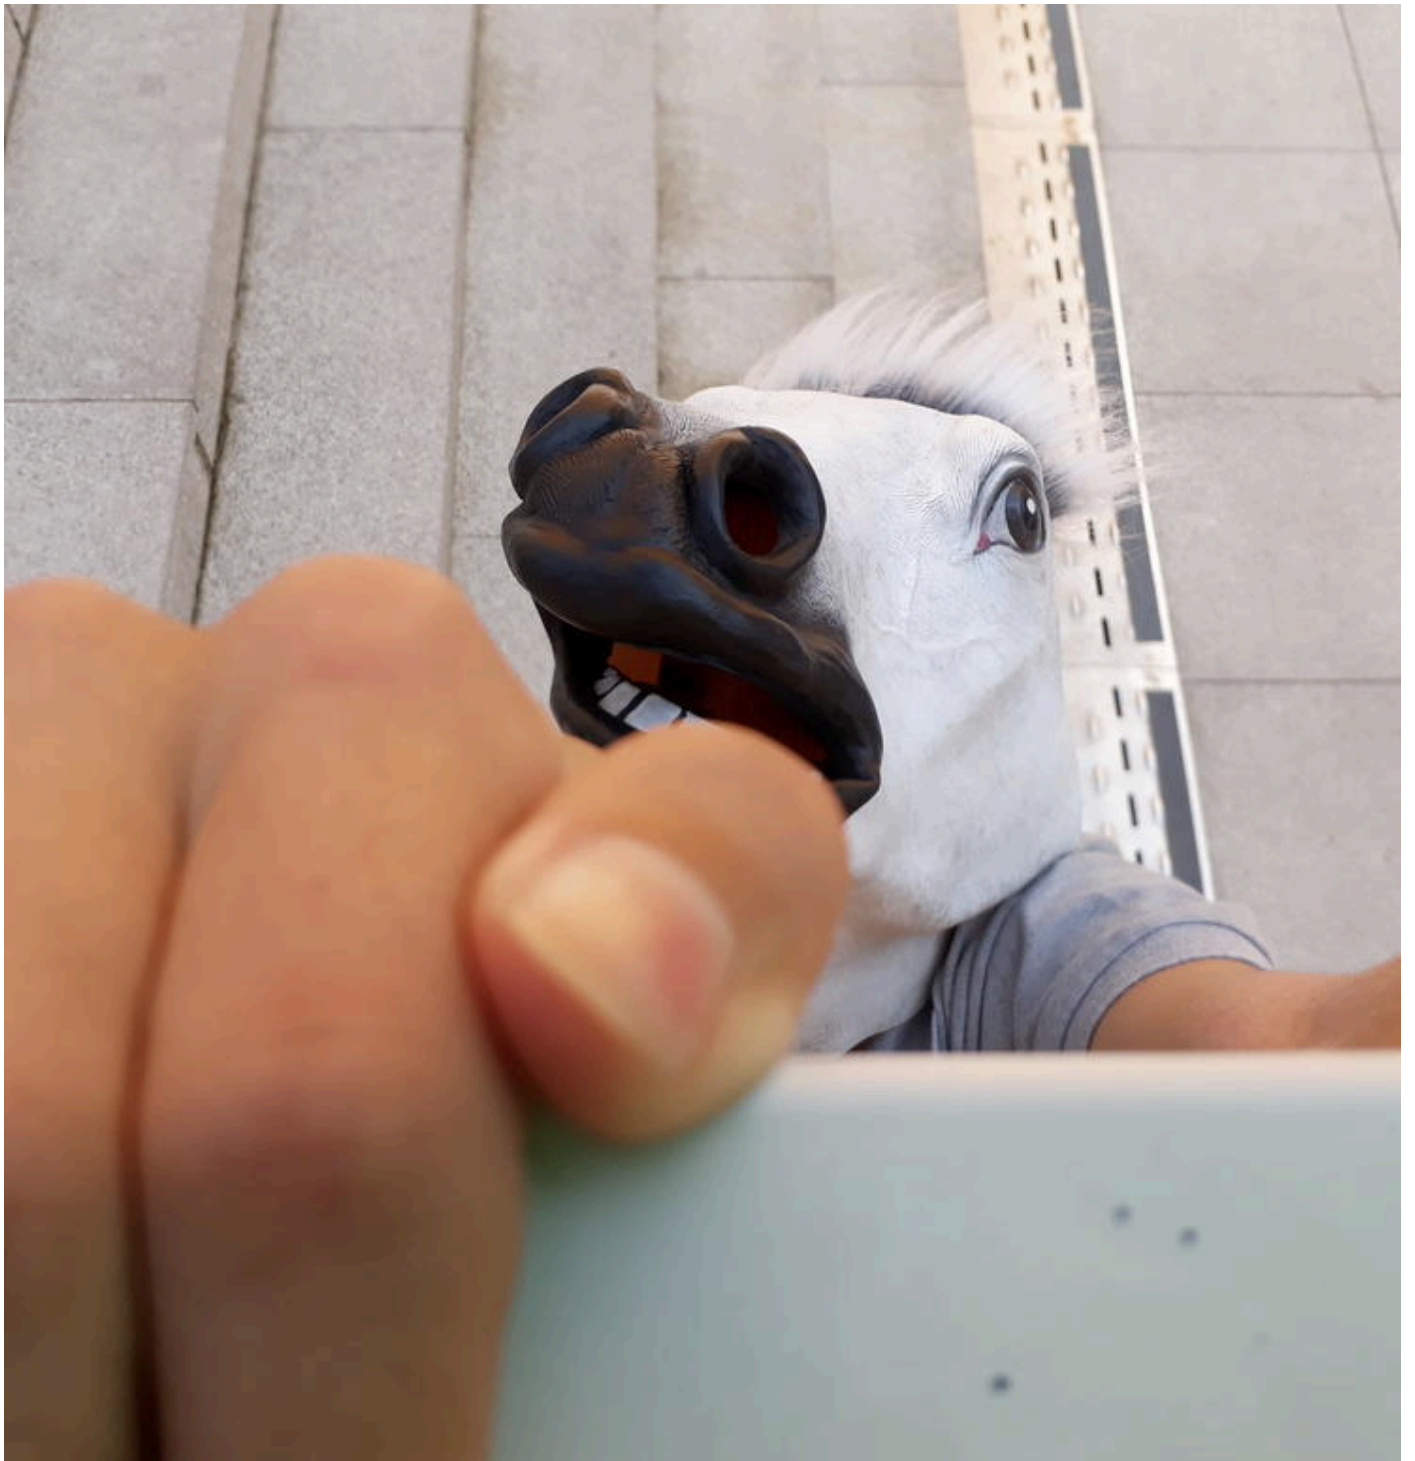

Too posed and can't see face, not too interesting

Pose is too straight and no angles or s-curve

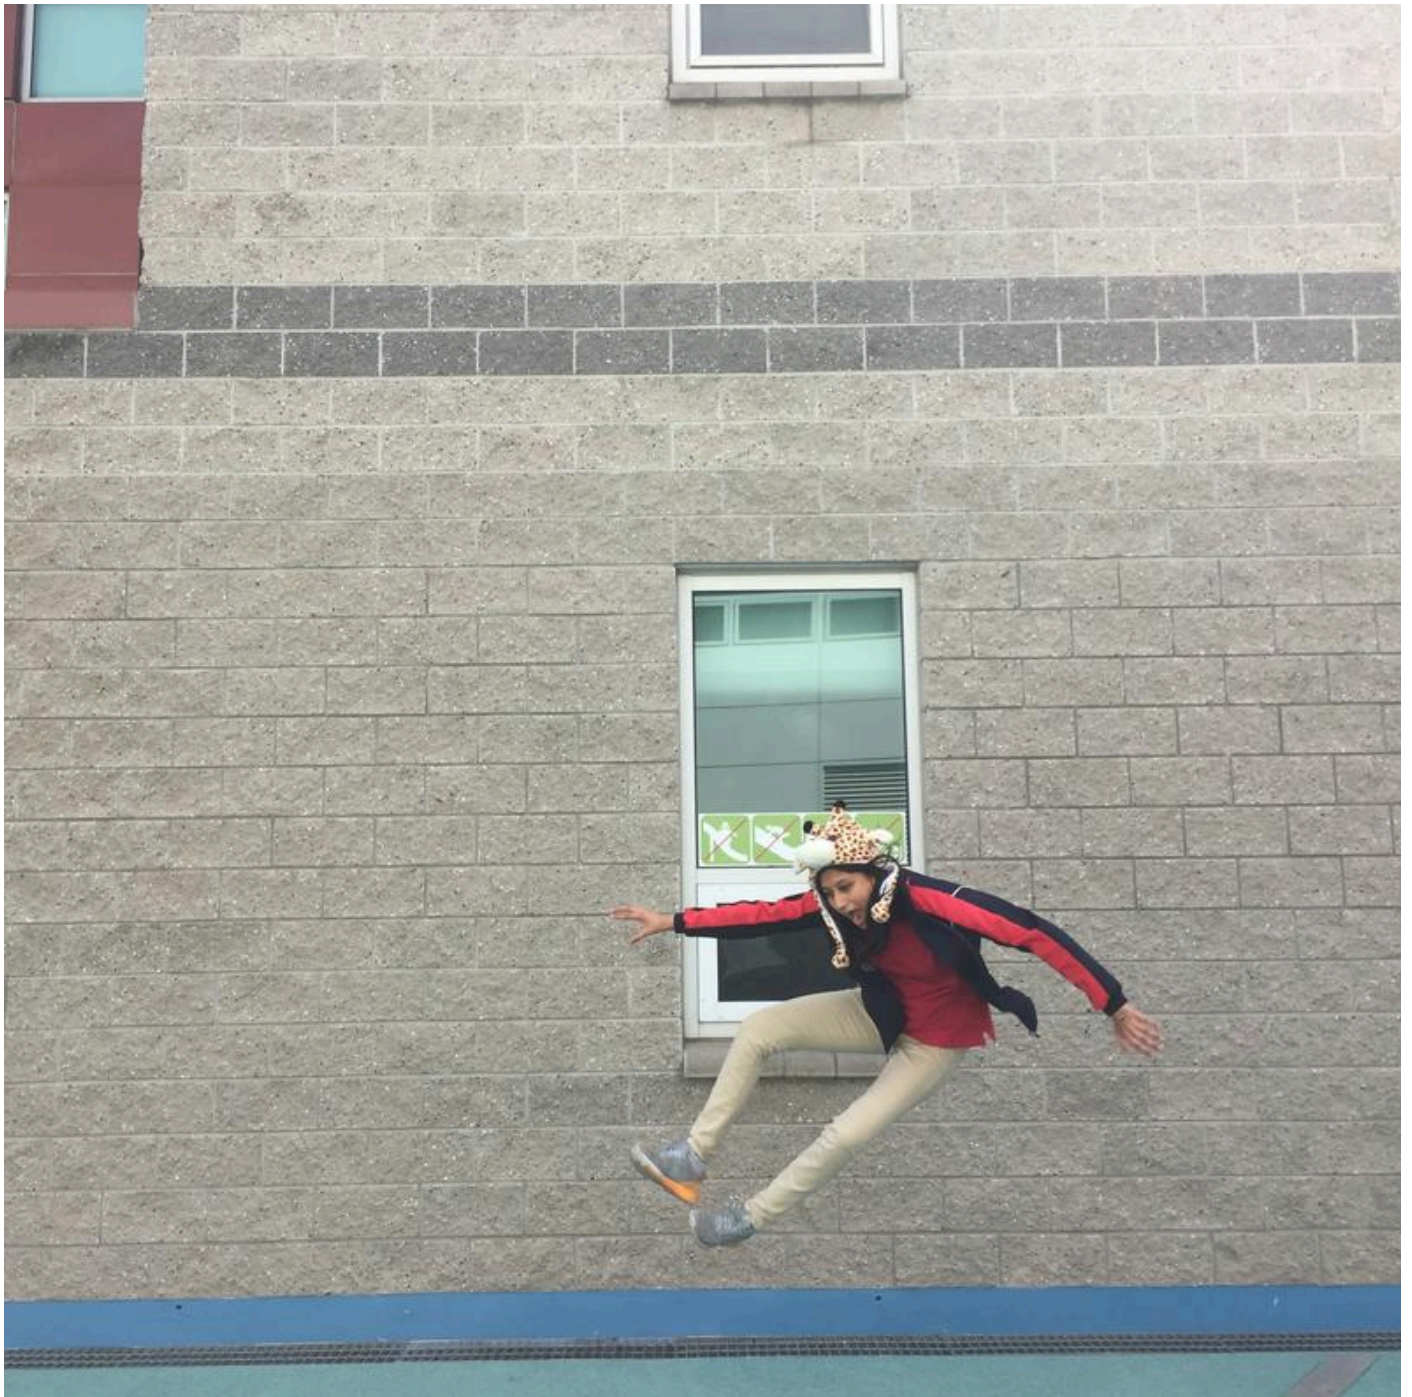

Too far away, composition off, and don't have poles or anything coming out of their head

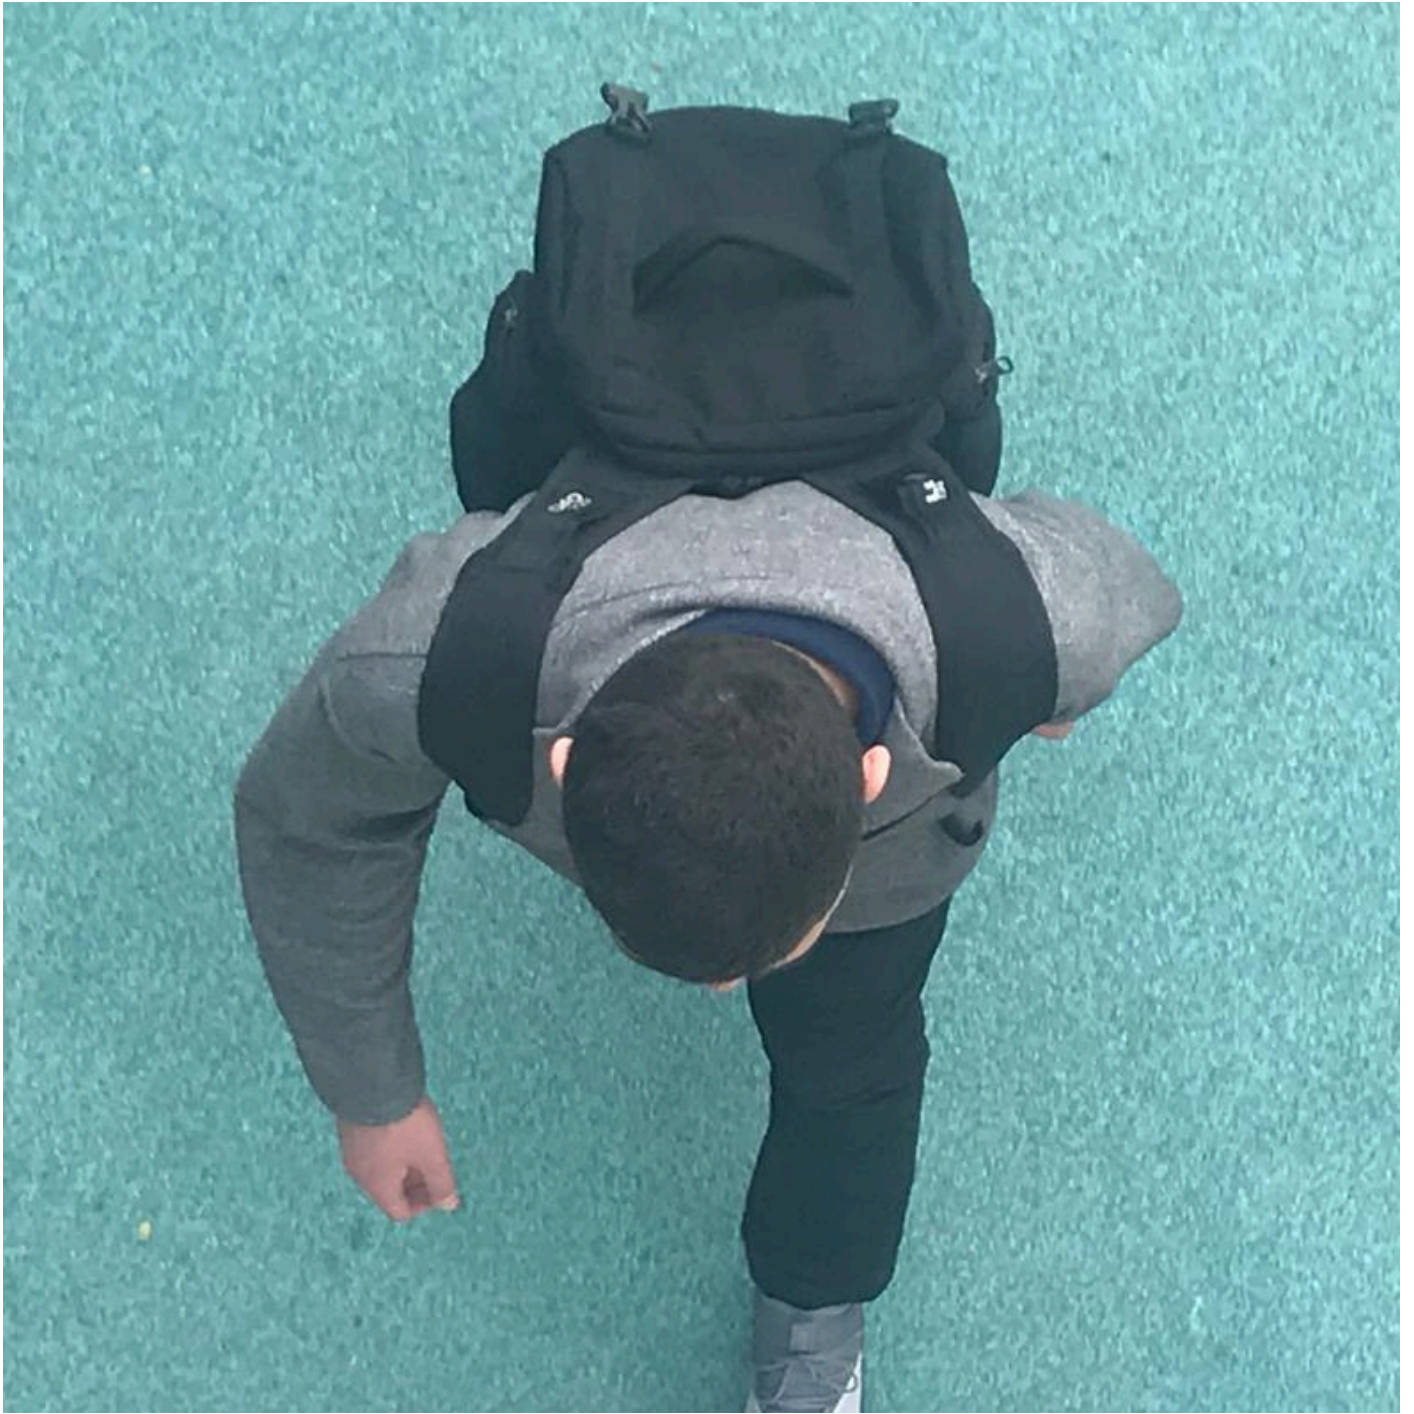

Do not wear props that cover your face and make you unidentifiable

Too much head room

Composition off and subject too small

Must see part of face & recognizable

Don't be too crazy
