

Hi Victoria, I noticed you offered virtual training, and it reminded me of something Southend Dog Training did to promote their online courses.

In 2023 they made three changes to their Instagram which boosted their following by 25% in 3 months.

They then used this boost in followers to promote their courses with "organic ads".

I noticed that your brand could apply these same changes to get the same results.

If you're interested in partnering to grow your Instagram, just shoot me a response!

Always The Best -Gabriel
