

PROJECT

My name is Andrea Agudelo. I am from Don Matías, but I have lived in La Ceja (Antioquia) for twenty years. I was born on July 25th. All my family and some friends call me “nana”, from the youngest to the oldest and I love it!

My mother is a dressmaker; her name is Esther. She supports me in all decisions that I make, because she says that the most important thing in life is happiness, no more. My sister, Paula, is a Paramedic. She loves her job because it was always what she fought. I have a bird, its name is Francisco, but we call him “pacho” most of the time.

I study psychology at Universidad San Buenaventura. I am studying my fifth semester. On weekends, I work in a restaurant as a waitress, with this job I pay my university and my particular tastes.

About my hobbies, music and art in general are very important things in my life. In this moment, I am studying music too, but in an informal way. I play the tiple in a musical format known as “estudiantina” in La Ceja town, I play the guitar too only with my family or friends, and regarding the piano, I am just to learning to play it. I like watching drama movies, also singing alone some great tunes. I enjoy listening to music a lot and spending time with all my friends.

I do not really like bad comments or gossips. I hate inequalities and benefits conferred in a bad way. I am a patient, friendly, sincere and responsible woman. I consider myself a protective person, dedicated and that know what I want.

In five years, I see myself with a steady profession and many projects to do. I see myself studying many other things that could complement my career like Philology, Philosophy and Literature, and of course a study for the soul: Music.

I would like to visit Brazil because the culture in this county is very interesting.

Thank you so much.
