CAUSA

- Very good group
- Just need approval
- Very organized and understand what they need
- Have connections with other CAUSA groups on other campuses
- Should reach out to OMA
- Vote: 5-0

HMDN

- Currently in the BME department but want to find ways to branch out to others
- Has been a group for 2 years in the BME department and understand what a group needs and what they specifically need to do
- Biggest concern is the budgetary aspects

Healing Hands

- International service organization cofounded by sister and him
- Have groups in Armenia, China, and Lebanon
- Want to create a collegiate network of groups
- Super established, isn't really a group like them on campus

UAV Club

- Combine academic side of drones with flight demos and building
- Looking to enter competitions
- Design Build Fly – more design based, 90% spent on design
- Same interests but different standpoint – mainly programming design rather than hardware design
- Have been in contact with DBF
- Place to teach as well – club for novice
- Recommend to become an academic group rather than sga group
-
