

Synapse

**An Integrated Cyber Security Risk & Resilience Management
Platform, With Holistic Situational Awareness, Incident Response &
Preparedness Capabilities**

SYNAPSE Open Call

Proposal Submission Template

(v1.0)

SYNAPSE is a project co-funded by the European Commission under the Horizon Europe Programme (HORIZON-CL3-2022-CS-01) under Grant Agreement No. 101120853.

TECHNICAL PART

Proposal Info	
Proposal Title	
Proposal Acronym	
Type of Open Call Beneficiary	☐ End-User / Use Case Provider (Open Call Beneficiary Type A: organisation operating a digital infrastructure) ☐ Cybersecurity Service / Product Provider (Open Call Beneficiary Type B: SME operating on the supply-side of cybersecurity technological solutions and services)
Provider of the Action	
Name of the Organisation	
Responsible person (Name, email)	
Other people involved (Names, emails)	

1 EXCELLENCE (UP TO 2 PAGES)

1.1 AMBITION AND OBJECTIVES

- Describe how the proposed solution / use case contributes to the achievement of SYNAPSE objectives.
- Describe how the proposed solution / use case leverages / extends the functionalities offered by the SYNAPSE platform, and where it is positioned in the SYNAPSE architecture.
- Explain the technical / use case challenges that your proposal addresses.
- **For End-Users:** Present the use case explaining the current situation and the targeted situation.
- **For Cybersecurity Service / Product Providers:** Give a technical description of your solution to face the challenges.

1.2 METHODOLOGY

- **For End-Users / Use Case Providers:** Describe the conditions and the scope of the use case activities. Describe how you envision to develop your real-life scenarios (including available technologies, digital assets, critical services to safeguard in your application field, type of data, protection mechanisms) and how your domain / sector is affected by cyber threats and the contribution that you intend to make with your use case.
- **For Cybersecurity Service / Product Providers:** Propose your architecture concept and technical advantages to the SYNAPSE platform. Describe how you envision to deliver / offer / integrate the

solution with the existing SYNAPSE offerings and the SYNAPSE platform. Technology Readiness Level: Please provide evidence of the maturity of the solution.

2 IMPACT (UP TO 1 PAGE)

- Briefly present the advantages and unique offerings your software solution or use case will bring into the SYNAPSE project.
- Briefly present the target market of the proposed solution and estimate its size. Identify the potential customers in the cybersecurity domain or end-users your team can reach.
- Define clearly and realistically at least 2 technical and 2 business KPIs to introduce advances and evaluate the SYNAPSE Platform.
- Briefly present dissemination and exploitation plans of your software deployed for the SYNAPSE platform or use case results.

3 IMPLEMENTATION (UP TO 3 PAGES)

- Describe how you will carry out the three mandatory main phases of the action, namely “Requirements Definition and Integration Design”, “Intermediate Open Call Results” and “Final Open Call Results”, see Guidelines for Applicants. For each phase, provide and describe relevant task(s).
- Provide a timeline (GANTT chart) for the tasks of the project considering that the duration of the project is fixed (9 months).
- The list of deliverables and milestones of the project are fixed, see Guidelines for Applicants:
 - “Requirements Definition and Integration Design”, Open Call Milestone 1 due to Open Call M3.
 - “Intermediate Open Call Results”, Open Call Milestone 2 due to Open Call M6.
 - “Final Open Call Results”, Open Call Milestone 3 due to Open Call M9.
- Provide key risks and mitigation strategies.
- Present your human resources via the budget distribution for the staff allocated to the project by means of person months. List and justify the equipment or other costs along with a short explanation.
