

# Annotated Bibliography

## Websites found

"35 Ways to Help the Homeless." *JustGive.org*. JustGiving, 2017. Web. 26 Apr. 2017.

<<https://www.justgive.org/donations/help-homeless.jsp>>.

This website for this source does exactly what the title says; gives 35 ways to help the homeless. Not only does it give ways to give to the homeless, but it also tells you the simple things to do that will make their day. A few things are showing kindness and donating food and clothes.

By showing ways to help the homeless, this source has a real value to my research and blog. It shows many ways to help the homeless if people were wondering how. I certainly was. To go to show that there are way more ways than giving money that you, yourself, may not have.

Abraham, Tony. "7 Things You Should Know about Homelessness in Philly." *Generocity Philly*. Technically Media, 24 May 2016. Web. 24 Apr. 2017.

<<http://generocity.org/philly/2016/05/24/homelessness-facts-poverty-youth-government/>>

This website also does exactly what the title says. It gives me 7 facts about homelessness and goes in depth with each of them. The facts are specifically about homelessness in Philly but still connects to homeless in the rest of the world.

The source connects to this project because it gives facts about homelessness. It also includes quotes from many people who work to help and inform about homelessness.

"Causes Of Homelessness." *Causes Of Homelessness | The Homeless Hub*. Canadian Observatory On Homelessness, 2017. Web. 26 Apr. 2017.

<<http://homelesshub.ca/about-homelessness/homelessness-101/causes-homelessness>>.

This source gives many many reasons on why one might go homeless. Knowing that anyone can go homeless, it can happen to you. From running away, to mental illnesses, to family neglect. There are many causes for homelessness

This is an important source because many people don't know why people go homeless. They think that if you drop out and don't get into a good college you will go homeless but even though that could be a reason, there are other ways. People who graduate from colleges still go homeless. This is because they might not be able to get a job, or maybe they can't get a home.

"Chronic Homelessness." *National Alliance to End Homelessness*. End Homelessness, 2017. Web. 25 Apr. 2017.

<[http://www.endhomelessness.org/pages/chronic\\_homelessness\\_overview](http://www.endhomelessness.org/pages/chronic_homelessness_overview)>.

Chronic Homelessness is anyone who has been homeless (don't have any type of shelter to live in like apartment or house) for at least a year or have been homeless at least 3 time in less than 3 years. The homeless can develop many diseases and disorders. They also struggle more than us. The chronic homeless are only a small portion of the homeless but struggle the most.

This connects directly to my topic of homelessness because it explains what Chronic Homelessness is. Chronic Homelessness is another more serious form of homelessness. This is

important because people don't know very much about this and this website talks about a homelessness in a way that even I didn't know about.

Poole, Glen. "Homelessness Is a Gendered Issue, and It Mostly Impacts Men." *The Telegraph*. Telegraph Media Group, 06 Aug. 2015. Web. 05 May 2017. <<http://www.telegraph.co.uk/men/thinking-man/11787304/Homelessness-is-a-gendered-issue-and-it-mostly-impacts-men.html>>.

This website talks about the homeless, but more specifically how most of the homeless are men. Though this website and information speaks mostly about the UK, it is still important. I usually see more men who are homeless than women.

This is an important source because it talks about how men are more likely to be homeless than women. It was a question that I received from a friend of mine that was "Are there more men or women who are homeless?" and this website tells me that there are more men who are homeless.

"Homeless Facts." *We Feed The Homeless Philly*. We Feed The Homeless Philly, 2004. Web. 05 May 2017. <<http://www.wefeedthehomelessphilly.org/homeless-facts.html>>.

"Veteran Homelessness Facts." *Veteran Homelessness Facts* | *Green Doors*. Homes Through Community Partnership, n.d. Web. 26 May 2017.  
<<http://www.greendoors.org/facts/veteran-homelessness.php>>.

Marie Collins (2017 May 6) Personal interview

[https://drive.google.com/file/d/0B2D\\_LNqleONTX1Z3eXZNTGw2aUk/view](https://drive.google.com/file/d/0B2D_LNqleONTX1Z3eXZNTGw2aUk/view)

This is an interview with my mom. I asked her questions about her experience with Homelessness. She told me important information on how it happened, how she felt about it and how she's glad she got to make things better for herself and her family.

This is an important source to add into my research on homelessness because it is a primary source. It comes directly from someone who has been homeless at a time in their life. It has important information on how she really felt as someone who was homeless.

William Tompkins (2017 May 18)

[https://docs.google.com/document/d/17mc\\_msmKz36HHpmcWYwa6FDVDGaQtElXiqPmkyvv\\_rw/edit#](https://docs.google.com/document/d/17mc_msmKz36HHpmcWYwa6FDVDGaQtElXiqPmkyvv_rw/edit#)

This is another interview that I got, but from my dad. He has also been homeless, and instead of it being a video, it was written out into a google doc. It is very deep and talks about his story, his issues and struggles while fighting his way through homelessness.

This is important because it is also a primary source. It from my dad and he spoke to me about how homelessness affected him and still affects him. This will show people how important it is to look at homelessness at the perspective of someone who is and/or was homeless.
