

Announcing the /r/fireemblem **Discord server banner competition!** This will be a competition to design a new banner for the server, which you can see in the upper left corner on Discord (it's currently the Awakening art). There will be prizes for the winner and runners-up, so we encourage everyone to participate!

Here's how it will work:

- Submissions will be open until **November 15th**.
- Submissions will need to follow the guidelines listed below, or else they will not be considered.
- Once we've closed submissions, we will select a short list of our favourite submissions and open a poll for public voting to let users determine the winner.
- The four submissions with the most votes will receive prizes, listed below.

Prizes:

- First-place will receive **an exclusive role with a colour of their choosing** as a reward (which will grant them permanent access to the #nitro-boosters channel), **their submission will be used as the server banner after the results are announced**, and they can pick a new emote for the server (subject to the usual rules).
- Second-place will have **their submission used for the server invitation after the results are announced**, and they can pick a new emote for the server.
- Third-place can pick a new emote for the server.
- Fourth-place can pick a new emote for the server.

Submission guidelines:

- **All submissions must be 1920 pixels wide by 1080 pixels tall.**
- The content of the banner must be FE-themed or related in some easily identifiable way (for example, by featuring characters or a prominent item/location from the series). Submissions that do not directly or easily relate to Fire Emblem will not be considered.
- Please, **no spoilers, NSFW, or gore/violence of any kind.**
- Assets used in a submission must **either** be from official FE material (for example, OA/portraits from the games, Cipher art, FEH art, any series fonts, etc.) **or** original material created by the person making the submission.
- **Do not use artwork or other assets created by other fanartists, even if you obtain their permission.** Doing so is grounds for immediate disqualification.
- **Trying to pass off artwork from other fanartists as your own is plagiarism (this includes tracing and "referencing" someone else's art).** Plagiarising or tracing someone else's art will lead to both an immediate disqualification and a ban from the server. *Please* do not do this.

We hope everyone interested does their best and has fun!
