

Open Resources

Our book recommendations:

Mycology

Entangled Life by Merlin Sheldrake

Mycelium Running by Paul Stamets

The Mushroom at the End of the World by Anna Lowenhaupt Tsing

Finding the Mother Tree by Suzanne Simard

Radical Mycology by Peter McCoy (DIY mycology)

Let's Become Fungal! Mycelium Teachings and the Arts by Yasmine Ostendorf-Rodríguez

Design & Ethics

Towards a Deeper Philosophy of Biomimicry by Freya Mathews (paper)

Making: Anthropology, Archaeology, Art and Architecture by Tim Ingold

Matters of Care: Speculative Ethics in More Than Human Worlds by María Puig de la Bellacasa

Design for the Pluriverse by Arturo Escobar

Biomimicry by Janine Benyus

Lo-TEK: Design by Radical Indigenism by Julia Watson

Thinking in Systems by Donella Meadows

Speculative Everything by Anthony Dunne & Fiona Raby

Ecology

Braiding Sweetgrass by Robin Wall Kimmerer

The Overstory by Richard Powers (fiction)

Is a River Alive? Robert Macfarlane
