EDUCATIONAL PLAN Moped

(normal progression)

Registration

Online/driving school

There is unfortunately a bit of administrative work to be done at the time of registration (snore;). So, to speed up the registration process, you can register easily, quickly and comfortably [online](#) from home or on the go (wroom....). If you prefer to register with us in the driving school, our office is open for you Mon-Fri 10.00-18.00 :)

Arztgutachten (doctor's report)

Optional/driving school

You only need the doctor's report if you are older than 20 years of age:) The doctor's report must be submitted in the original to the Verkehrsamt as soon as possible (after the registration) where it will be registered. Until the doctor's report is registered, you cannot take any tests. You need to find a doctor who is authorized for the purpose of the driving license, and it can't be your general practitioner! You can also get the doctor's report from our visiting doctor. [Find and book an appointment](#) now!

Theoretical course

Driving school

For the moped license with us you need 10 course modules for basic knowledge (GW 1-10). The GW course lasts five days. The motorcycle course (A 1-3) lasts one day. You will find planned course times and required modules under [Termine](#) (GW 1-10 + A 1-3). [Have a look](#) now :) You will get access to the learning materials immediately after registration, so that you can prepare yourself for the course in advance :)

Theoretical test

Driving school

Whee, theoretical test ... :) Now all the necessary modules (and the doctor's report) have been completed, you have tried the test simulation for the theoretical test in the driving school (... right?) and the theoretical test is the next step. Latest today we need a passport photo of you - so say cheese :)

Driving lessons

SeeStadt + surroundings

You start the practical part with six driving lessons on the training track. After that you need 2 legally required driving lessons in traffic and the moped education is complete! Don't forget - you need to bring your own protective gear (at least helmet, gloves, jacket and ankle high boots) to the driving lessons:)
