

Instructions should have clear, simple steps so you don't confuse the person reading them.

Can you make these various instructions easier to understand?

Pick up an egg, gently hit it against the side of a bowl and empty the contents into a clean bowl.	
Open the fridge and take out the butter. Take off the lid. Get a knife and use it to scoop some butter. Rub the knife onto the toast.	
Hold the two shortest sides of paper and bend them together. Squeeze them so that the paper is now in half.	
When you hear the sound of the whistle, move one leg in front of the other as quickly as you can.	
When player One had rolled the die, they should hand it to player Two, who should then roll it too. The person with the highest score moves their counter first.	
If you want to turn on the computer, look for the round, lack power button and press it once.	
Hold the handles of the scissors and cut along the dotted line, making sure you don't hurt yourself.	
Before you start mixing the ingredients, switch on the oven and turn the dial to 140 degrees.	
Take the lid off the glue stick and rub the glue on the tab, being careful not to get any glue on your clothes.	
When you have planted your seed, pick up the pot and move it it near to a window where it will get lots of sunlight.
