Community Service Verification

There are different ways you can show verification of your service. You will need to provide a link to your documentation in your application.

Below are some ways to show proof of service. Be sure to include dates and times of service activities.

1. Use the [Community Service Verification Form with Hours Log](). Use one form for each activity/place you volunteer. Scan your forms. Paper copies of the form are available in the Future Ready Center.

2. Pictures or screenshots of an hours log from the organization you volunteer with.

3. Spreadsheet or list showing dates and times. Use [this one]() or make your own.

4. Video of an online hours record from an organization you volunteer with.
