

Company Brief : Disk-O-Tech

Company Name: Disk-O-Tech

Headquarters: Houston, Texas, USA

Era of Focus: The Digital Decades (1980s and 1990s)

Mission Statement

To boldly go where no modern computer has gone before... and keep the relics of the digital revolution running for all time! At Disk-O-Tech, we're dedicated to preserving and providing the true classics of the personal computing golden age. Forget the cloud; we deal in floppies!

Core Business & Product Offerings

Disk-O-Tech is your Houston hub for all things retro-computing, specializing in the two most righteous decades: the 1980s and 1990s. Our shelves are stocked and ready to serve anyone from the seasoned sysop to the newbie who just wants to see what a 40-megabyte hard drive looks like.

New and Used Hardware: We specialize in complete systems and the vital components that power them, all carefully curated from the '80s and '90s.

Category	Key Offerings	Vintage Brands Available
Computers	All-in-One, Tower, Desktop, and Laptop systems.	Apple, IBM, Commodore (Amiga, 64!), Atari, Compaq, Dell, Gateway 2000, Tandy.
Components	CPUs (Intel 286/386/486, AMD K5), Motherboards, Sound Cards, RAM (because you can never have enough!), PSUs, and those sweet, sweet GPUs (3dfx, S3).	Intel, AMD, Motorola, Creative Labs, 3dfx, ASUS.
Storage & I/O	The essential bits: Floppy Drives (5.25" and 3.5"), Hard Drives (IDE/SCSI!), Optical Drives, Modems	Seagate, Western Digital, Iomega, Hayes, US Robotics.

	(56k? Luxury!), and Controllers.	
Peripherals	Everything you need to interface with your box: Keyboards, Mice, Monitors (CRT not required, but highly recommended), and <i>all</i> the Cables (RS-232/Serial, Mac ADB/68k).	Belkin, Microsoft, Generic.

Operating Systems & Software: We stock a radical collection of vintage operating systems and essential software. Whether you're running the classic command-line or a GUI, we've got the disks:

Operating Systems: MS-DOS (3.x/6.x), Windows (3.11, 95, 98, NT 4.0), Mac System (6/7, OS 8), AmigaOS, and Atari TOS.

Games & Applications: From the days of the CGA, EGA, and VGA, we sell classic software, whether on floppy or CD-ROM. *Watch out for pixelated dysentery!*

Repair and Maintenance Services

"No problem is too big for a soldering iron and a little elbow grease."

At Disk-O-Tech, we understand that a capacitor can fail, a floppy drive can drift, or a memory chip can take a dirt nap. Our expert technicians provide meticulous, non-standard repair services to keep your retro-tech kicking.

Diagnostic Service: We'll figure out why your computer is saying "**Bad command or file name**" — guaranteed.

Component Level Repair: We don't just swap motherboards; we replace the *component* on the motherboard. We're talking chip-by-chip fixes!

Data Retrieval: Need to get those files off that old MFM drive? **We can handle it.**

Upgrades: Looking to get that extra 16MB of RAM or finally upgrade to a mighty 486? We'll make your machine *scream* (at a glorious 100MHz).

Our Motto

"In the end, it's not about how fast your processor is, but whether you can still find the drivers for it."

Disk-O-Tech: Saving Megabytes, One Byte at a Time! (Seriously, bring your old equipment in. It's too expensive to replace a 10MB Hard Drive these days!)

Location

Location: MegaByte Plaza, 2800 Sage Rd, Suite 101, Houston, TX 77056 (The shop is strategically located near the Westheimer/Galleria area, easily accessible to all who can navigate a Houston freeway and have a reliable car phone).

The store itself is a glorious time warp: the carpet is a faded geometric pattern, the air smells faintly of ozone and old vinyl, and a constant, low, rhythmic whirring emanates from the back repair bay—the sound of 5.25" floppy drives seeking.
