ABSTRACT

"Click here, type abstract in English, a maximum of 250 words and structured."

1. INTRODUCTION

Article on JALC is 5-15 pages and uploaded in MS Word format. A maximum of 12 words are used as the title of the article.

Article is divided by category; (1) research article, (2) technical article, (3) conceptual article, (4) case studies, (5) literature reviews, and (5) general reviews. The article is written in an arrangement consisting of Introduction, Method, Results and Discussion, Conclusion, Reference and Appendix (if necessary). A way to write the chapter title following this template is by selecting the available style, i.e., Heading 1.

The author must ensure that his/her writing does not contain plagiarism. Articles that have been published as proceedings are not accepted for publication in SCOPE without going through a further process to complete the paper and the final research data.

Use this template by utilizing style or immediately copy and paste for an ease of writing your article. The writing of very specific terms uses italics.

2. METHOD

1. Heading of the Second Level

Headings on the second level are written in boldface italics using uppercase and lowercase letters. Headings are written in the align text left.

a. Heading of the Third Level

Headings on the third level follow the style from the second level heading. Avoid using headings of more than three levels.

2. Reference Writing

A way to write references can be seen in Reference section. Permitted reference types only consist of journals, proceedings, and research reports in the last 10 years.

Reference writing is done by writing references in APA style format. Reference writing at the beginning of the sentence is also the same. JELT strongly recommends using reference assistive applications such as Mendeley or EndNote. Mendeley is preferred because it does not require additional fees for application licenses.

3. RESULTS AND DISCUSSION

The stages involved in the research, the concept development or the case resolution are written in the methodology section.

Mathematical equations must be numbered sequentially and begin with (1) until the end of the paper including the appendix. This numbering must be started and ended with open and close brackets and written in the align text right. Add a blank line above and below the equation.

$$FV = \frac{(CU+CL)}{2n} \quad (1)$$

The nomenclature of a mathematical equation is written in a separate section after the Reference.

1. Table

Information in the table is given above the table. Information is written in lowercase except for the first character in each sentence. All figures must be numbered sequentially. The table is placed in the *left aligned*. The font size used is 9 pt.

An example of making a table can be seen in Table 1 and Table 2. If the contents of the table are from a particular source, mention it at the bottom of the table with the font size 7,5 pt.

Table 1 First Table Title

Get and Place:			
Weight	conditions	Place accuracy	Code
<= 1 kg	easy	approx.	AA
		Loose	AB
		Tight	AC
	difficult	approx.	AD
		Loose	AE
		Tight	AF
> 1kg <= 8kg	handful	approx.	AG
		approx.	AH
		Loose	AJ
> 8 kg <= 20kg		Tight	AK
		approx.	AL
		Loose	AM
Handel tool: Get, Place and Place a side		Tight	AN
		Approx.	HA
		Loose	HB
		Tight	HC

(Source: xxxx)

Table 2 Second Table Title

No.	Class Interval	Frequency
1.	41-47	9
2.	34-40	14
3.	27-33	5
4.	20-26	5
5.	13-19	2
6.	6-12	1

2. Figure

4. A way to present a figure can be seen in Figure 1. If the figure is a secondary source, then the source needs to be mentioned. Caption figures are placed at the bottom of the figure. The figure does not need to be framed.

5.

6. **Figure 1.** Example of Writing Caption in the Figure

7. CONCLUSION

This template is created for consistency in the format of articles published by JELT. Cooperation and willingness of the author to follow the writing guidelines is expected.

ACKNOWLEDGMENT

If any, please write in this section. Acknowledgment is only related to the source of research funding by writing down the contract number.

REFERENCE

SCOPE uses *reference manager* application of Mendeley (<https://www.mendeley.com>) for Reference management. Reference is written according to **APA style** format.

NOMENCLATURE

Nomenclature is accompanied by the meaning of all mathematical equations or other nomenclature in the article, written in this section.

- × meaning of ×
- E meaning of the variable E
- J_c meaning of the variable J_c

APPENDIX

Appendix that needs to be submitted as supporting information of the article is written after the author's Biodata. A maximum of 4 pages, are allowed for the

appendix section. If the author includes tables, figures, or mathematical equations, they are also numbered sequentially.

8.
