Academic Goals

1. List all goals that relate to academics and can be supported by accessing curriculum (core or adapted) here. You may choose to copy the actual goal or you may choose to summarize the goal in more user friendly terms. If you are not sure what these would be as the provider who is responsible for the goal. In deciding which option to choose you may want to consider the audience --- a general education teacher may be better supported by a more user friendly document whereas a special education teacher would likely have the experience to understand the more technical nuances that are included in the IEP. Be consistent across goal areas.
2. Add or delete numbers as needed to include all goals and adjust the text box as appropriate.
3. Make every effort to make this document no more than one page front and back --- and add white space where you can.
- 4.
- 5.

Communication Goals

1. Insert all communication related goals here --- these can be based in the classroom or in therapy -- add those that may be addressed in class first.
2. Add or delete numbers as needed to include all goals and adjust the text box as appropriate.
