Monday, February 22

First Quarter in Cancer - All Day

Nourishing Your Process

[Combined with Waxing Gibbous Phase]

- **Channel sensitive emotions** into art, creation, work that you love, clients
- **Listen** to what your inner voice has to say about your next steps
- **Hold vulnerable space** for clients in events, retreats, 1:1 sessions
- **Maintain healthy boundaries** around your need for rest and peace

- **If feeling emotional and unstable**, spend time in and honour emotions while also actively releasing them
- **First Quarter**: Active momentum, increasing energy, building & progress
- **Waxing Gibbous**: Active & busy, implementing new skills and pushing for completion of tasks and projects

If you're high energy/in a work mood: This moon might have us deep in our feelings about the work we do and make us want to do more of it, so if it feels good to dive into client work right now, do it. We might feel more connected to others right now and how we've brought change to their lives. Focus on how people who walk away from time with us feel more restored, and how this can become integrated more into your signature process. Even if you don't work directly with clients, this moon can help you tune in deeper into how you truly help people - ultimately anchoring you deeper into the work itself.

If you're low energy/in a self care mood: If working with clients doesn't feel aligned or you're wanting to rest, this is a great moon to simply take time to appreciate yourself fully for the skills you have how you help others with your work. Pull out all the testimonials you've been given and reminisce on the positive impact you've made in their lives. Consciously become more open to receiving positive reviews on your work by giving yourself your own testimonial from the perspective of your most aligned ideal client. If you're feeling completely drained and empty right now, do whatever you can to simply replenish your cup - put your need for rest first and be willing to protect that with boundaries if necessary.

Moon Boost:

Pisces Neptune & Sun

- Dreamy, creative, forgiving, compassionate
- Boost to intuition and spiritual abilities
- The **Sun** helps connect us to our natural state of vibrancy and in this spiritual sign can realign us with the divinity that is always present within, even when we're feeling the most disconnected.

Social Media:

- **Share with them your ability to meet strong emotions with clarity** and that they too can navigate their own stormy waters when they choose to take action. Be an example to those who are feeling lost

- **Show your audience you care** in whatever way that looks for you
- If your work involves **tarot/divination cards**, this is a fantastic time to go live with free 1 card readings.
- **Chat with your audience** either live or through written posts as a way of spending quality time with and nurturing them

Tuesday, February 23

Waxing Gibbous in Cancer begins at 10:42 am PST

[Combined with First Quarter Forecast]

Void Moon from begins at 8:53 pm PST [Cancer to Leo]

- **Short void**, perfect for a meditation/nap/during sleep
- Vulnerable, emotional space, great for self care sessions
- **Hold off:** on any big announcements/launches as this energy makes us distracted and like we're lingering in limbo
- **Water to Fire** = cleansing and releasing

Mars Trine Pluto (February 23 - 26)

This transit provides us with a surge of motivation and goal-directed energy. It is a great period of embracing our desires and going for what we want. Our leadership skills will be highlighted at this time. Obstacles that have previously held you back will no longer present the difficulties they once did before you just won't see them as such a big deal. Our sexuality will also be amplified at this time, along with our desire for the spiritual and mystical.

Wednesday, February 24

Waxing Gibbous in Leo begins at 4:23 am PST

Behead Your Imposter Syndrome

- **Great energy for a big announcement**, a New Year promotion - especially with themes related to regaining strength and fortitude
- **Tap into what makes you a professional authority**, be proud to show it and share your brilliance with your audience and community
- **Step into the leadership role** you know you were born for
- **See your business as a kingdom** you have influence over so that you can show up with a strong sense of confidence around the work you do
- **Waxing Gibbous:** Active & busy, implementing new skills and pushing for completion of tasks and projects

If you're in a high energy/work mood: Oftentimes, when we are trailblazing in our industry, we might feel some doubt around our abilities and whether we might be overestimating our successes. This is the time to shine a light on how we feel about our work and share our greatest creations from the depth of our hearts. When we are true in our intentions, we are as real and authentic as we can be and simply need to embrace that with bravery. Show up and stand tall. Banish the imposter (syndrome) from your kingdom.

If you're in a low energy/self care mood: Nourish yourself by connecting with your inner child and giving yourself permission to play and be free. Showing up in our business right now might not feel aligned, or we may not have the strength to stand up to our inner imposter syndrome. Forgive yourself and instead lean into simply regaining a sense of fun and passion over the work you do. Be creative, make happy memories with friends and loved ones and do whatever is necessary to experience true, authentic joy. If you have children, spend time with them to get inspired. Let loose, dance, sing, and let yourself be messy and wild while you do it.

Moon Boost: Chiron in Aries

- **Chiron:** We're focused on our own wounds and how they've held us back from living our authenticity. How can we move through them and heal?

South Node in Sagittarius:

- **South Node:** The karmic release point for society right now is around letting go of believing we have everything figured out and have mastered our experience. The more we humble ourselves by understanding that we are forever learning, the more wisdom we actually gain.

Social Media & Clients:

- **Share your magic** with your audience with full excitement for something you believe in 100%
- **Actively promote** launches, 1:1 coaching, courses and any other offerings with live video - no need to hard sell, just be yourself
- Local events, public speaking, **sharing your story** in any way
- Encourage your audience to **spend time in a deeply creative process** and consider offering them quick, inspiring content

Waxing Gibbous in Leo - All Day

Behead Your Imposter Syndrome

Venus in Pisces [February 25 - March 21, 2021]

Venus represents love and money. When it enters Pisces we are invited into a dreamy, almost unreal world, where anything is possible (or we wish it could be). There can be a desire to see things as we wish to see them during this period rather than as they are. From a financial perspective, this can be very beneficial as it encourages us to use our intuition and our spiritual side to cultivate income and growth.

From a relationship perspective, there is a dreaminess to our love. If we are single we are craving the perfect, flawless partner, or not able to as easily see the flaws, in another. There can be a desire for the story or the fact that a person presents themselves rather than the more practical, human, and flawed side.

For those already in a relationship, there is a desire to stir up romance, connect more deeply, share time together, and create something powerful.

Friday, February 26

Void Moon from 3:31 am - 9:07 am PST [Leo to Virgo]

- **Long void:** good for extended rest and reflection

- Simmering down from the excitement and thinking more seriously and about needs to be accomplished over the next few days
- **Hold off:** on any big announcements/launches as this energy makes us distracted and like we're lingering in limbo
- **Fire to Earth** = putting creativity into practice & structuring

Waxing Gibbous in Virgo begins at 9:08 am PST

Simplicity Sells

[Combined with Full Moon Phase]

Saturday, February 27

Full Moon in Virgo begins at 12:18 am PST

Simplicity Sells

[Combined with Waxing Gibbous Phase]

- **Focus and simplify** anything in your sales system that creates confusion or extra work for you that doesn't actually add more value. Less is more.
- **Go through your business** with a fine toothed comb and course correct strategies and tools that you're not fully utilizing or gaining benefit from
- **If work feels impossible**, this is a good time to attend to deep self care and to create healthy habits that are simple and easy to act on
- **Focus inwardly** and practice releasing beliefs and situations that are draining your resources - trim out anything that feels unnecessary
- **Full Moon:** Active energy for completing and wrapping up tasks

If you're high energy/in a work mood: This moon is a powerful time to let go of all the extra pieces of your business, your sales systems and your life in general that aren't actually bringing more value to you. Simplicity is an art and a science that when used strategically can actually leave you feeling more 'full' and complete than having a whole complicated set up. The more you focus fully on the best parts of your business, the more refinement you bring to those pieces and thus more nourishing you can pour into them. In turn, your people will feel your commitment to your work, your process and feel more stability in what you have to offer.

If you're low energy/in a self care mood: Utilize this moon to strengthen your health routines in a way that is more simplistic so that you're more likely to stick with them. Nourish yourself by actively attending to your bodily needs in a gentle yet precise way - Virgo style! Keep your self care simple by picking one thing that works the best for you and honouring it in your daily or weekly routine. The less complicated you keep this process, the more room you have to experience this self care in its fullness, instead of half committing to it.

Moon Boosts:

Capricorn Pluto presents a prolonged crisis that we become conscious of and must purify from our business practices. We might see the painful results of what hasn't worked thus far and must do the gritty work of alchemizing that professionally.

Taurus Mars & Uranus

- What **physical tools and services** do we need to upgrade in order to create more sustainable income and lower costs in our business?
- Best for **innovating new technologies** that help us make money online
- Entire **restructuring of the global economic system** and thus will impact personal finances and what role we play in the global market
- **Mars** will have us slowing down and thinking more long term about what our business goals are and what practical action is needed to achieve them. This is an important transit for organizing our finances as well as creating more systems of revenue that bring us long term stability.

Social Media & Clients:

- This isn't the most emotionally supportive energy to work with, so **be mindful of getting distracted by processing feelings** when the best use of this moon is to create solutions.
- **If you have created a system** that has improved how you do things, this is a great time to share the details about it.
- **How To Videos & Outlines** of "How I ____ to make my life better" can draw the attention of those who are one step behind you struggling with the same issues you've had experience with.
- **Be of service to your audience** by sharing tools and techniques with them (spreadsheets, checklists, walkthrough videos, webinars, bonus trainings).
- **Gather feedback** from those who have used your tools to find out if what you're offering is having a real impact

Sunday, February 28

Void Moon from 7:57 am - 11:16 am PST [Virgo to Libra]

- Emerging out of intense productivity and solitude towards socialization
- **Hold off:** on any big announcements/launches as this energy makes us distracted and like we're lingering in limbo
- **Earth to Air** = Introducing flow and balancing heavy with light energies

Full Moon in Libra begins at 11:17 am PST

Fresh & Aligned

- **Freshen up the aesthetics** of your online presence (website/social media/email format/branding/etc)
- **Give your audience sneak peaks** and talk about how you're evolving and polishing your look to reflect an evolved direction you might be headed in
- **Tap into the needs and interests** of your ideal client and think about what it is that attracts them to your work - do more of that!
- **Full Moon:** Active energy for completing and wrapping up tasks

If you're high energy/in a work mood: This moon is about illuminating all of the aspects of your work and your aesthetics that are attractive, alluring and simply irresistible to potential clients. The ones who resonate deeply with your content because it feels as if it speaks directly to them. Use the influence of this energy to put yourself in your ideal client's shoes so that you know exactly what it is that they want to see from you. This moon is the time to look through the aesthetics aspect of your business and ask yourself not just if it represents who you truly are but if it speaks to the ideal client you wish to attract.

If you're low energy/in a self care mood: If you want to step away from your business and focus more on your own self care during this time, utilize this moon to pour nourishing 'moon water' on either your personal appearance/beauty or into your relationships. What you focus on with love right now will blossom like a flourishing garden so take this time to stop and smell the roses like a goddess appreciating the simple things in life.

Moon Boost:

Mercury, Saturn & Jupiter

- **Mercury** is exalted in Aquarius, giving us a genius edge to our thinking and our ability to plan creatively and innovate new solutions. **In**
- **Saturn** brings stability and foundation to our communities so that the networking efforts that we make will build us up together.
- **Jupiter** imbues us with hope and optimism for humanity and we might be more interested in making big moves in our communities as a result.

Gemini North Node gives us a feeling that we are moving in the right direction when we honour the role information and communication plays in building community. In what ways can we listen and learn from others?

Social Media & Clients:

- **Use polls and questions** to learn more about who is currently following your work versus who you would rather be working with
- **Re-engage an audience** after the productivity heavy period of the previous earth moon
- **Treat your content like conversations** with good friends, this creates real connections that help those you speak to feel heard and valued
- **Go live on social media** for the purpose of having an open conversation can be a great way to get to know your audience
- **Focus on connecting with other experts** in your field through interviews, professional spotlights and collaborations

Ongoing Transits

Mercury Direct in Aquarius (February 20 - March 12, 2021)

Post Rx Shadow Feb 20 - March 12

Mercury out of shadow March 12 - March 15

11 Aqu 01 - 26 Aqu 29'

With this being a post shadow period after Mercury's retrograde, we may feel like we are re-entering our work pace slowly and a little more hesitant. A lot has been processed and moved through and we may feel like everything looks a little weird or different than it did previous to the retrograde. Take your time and work out these changes, we were slowed down for a reason and it's for you to assess what has changed and HOW you're different and what this means for you moving forward.

Ideas may arrive spontaneously to you at this time, or areas where you just have felt stuck, overwhelmed, or just not able to come up with a solution to a particular set of challenges may see some relief during this transit. We are more open to solving our problems and aren't as emotionally attached to them, or the outcome. Be open to the creative ways that ideas come to you at this time, and let your inner genius get to work.

This is the time to correct any issues that came up for you during the Mercury RX.

Mercury in Aquarius highlights the search for knowledge, new ideas, new concepts, creative genius, problem-solving, with a focus on the greater aspect of humanity. It opens the doors to new inventions, connecting far-reaching thoughts, philosophies, religions, spirituality, world-changing, and often seemingly opposing ideas into a congruent and powerful collaboration.

This transit will be calling us to seek the meaning of our work and how it is making an impact in the world at large. Along with this feeling that there is more that we could be doing, there is a desire to be creative and our mind is on the hunt for solutions to even the scariest problems in our lives and businesses. There is an electric feel to this placement and it's eager to dive deep into human behavior and utilize it for business. When we understand what makes us as people tick, we become much more interested in playing with social trends. Analyze your market and look with an eye for gaps in the industry that you could be filling with your work and capitalizing on.

Sun in Pisces (February 18 - March 20, 2021)

Transcend

When the Sun moves through Pisces the connection between our highest selves, our inner emotional world, and our physical, mental, and emotional barriers become transparent.

There is a focus on the spiritual, the intuitive, and our desire to create a practice, and structure from the less tangible. A place where our dreams and our illusions get more of the spotlight. Have we been believing something that isn't based on truth? Have we been pinning our hopes and dreams on something that doesn't hold water?

What are we wishing to transcend, to go beyond right now?

How are we embracing our intuition, our inner magic, and working through our traumas, and patterns of abusive behavior, self-harm, punishment, shame, and outdated beliefs?

This is a revealing window that shows us what's going on behind the curtain. What needs to be cleared, dusted, revealed, or acknowledged within ourselves, our minds, and our lives.

There is a deep connection with the divine, the spiritual, and cultivating a practice. Allow your intuition to guide you on what needs and wants to be healed.

Venus in Aquarius (February 1 - February 25, 2021)

During this transit, we are being encouraged to expand our ideas of love and what is possible. Venus desires to own, control, pursue, be in relationship with, whereas Aquarius is emotionally detached and doesn't want anyone staking any claims. It has a more expanded, less individualized concept of love. It is focused

on unconditional love, and that our most profound growth comes when we don't control another but are in fact in a deep understanding of the transitory movement of love, and affection. That in order for it grows and evolves it cannot be possessed. During this transit, our attachments, and desire to hold on to another in our relationships, is being challenged and expanded. True love is free and allows both parties to evolve. Whether you are in a relationship or not, it can be helpful to allow these understandings to move you and uncover areas of growth and healing for you.

Mercury Rx in Aquarius (January 30 - February 20, 2021)

World Changing Work

26 Aqu 29' - 11 Aqu 01

Mercury Rx in Aquarius will be focused on the Ideal, our utopia, advancement in technology, and how we're using it to improve our world, our businesses, our interactions. This is a great time to spend diving into new and innovative ways to 'do business'. How can you connect what you do, with more people? How can you deliver it over more platforms, using different formats of delivery (podcast, app, audio, telegram, etc)

Each Mercury Rx gives us an opportunity to go back to the drawing board and make improvements, or re-direct our thinking. During Aquarius, we are being asked to think bigger and connect the dots between our work and our impact.

As with all Mercury Retrogrades, we are being offered a re-visit/re-do period, and Mercury is here to show us what needs to be re-done, re-visioned, and re-understood, and because it knows we're stubborn and like to put things off, it's going to make sure we pay attention by creating mass interruptions and disruptions to the things we need to fix or heal.

With any Mercury Retrograde through an air sign, we will want to be aware that our thinking will feel disconnected, scattered, and unfocused. This is not an ideal time to be making major decisions or working on tasks or projects that require a significant amount of focus but rather to take some time to process,

allow and work with what is shifting. If work is needed right now try to work on more 'behind the scenes' stuff and take plenty of breaks.

How to use this retrograde:

This retrograde will be occurring in the sign of Aquarius (Air) which will be encouraging us to evolve the way we think about community in our business. Mercury Rx is best used to evolve the way you approach your work and how you nurture your community under difficult conditions. How connected we are in our circles and whether we (and our people) feel real belonging in our business.

This Mercury Rx will specifically target social platforms like Facebook & Youtube which are both Aquariuses.

Take note of the house(s) of your chart where this will be taking place to get a hint of what area(s) of life will be highlighted by this retrograde.

To Launch or Not To Launch?

Launching and Marketing through Mercury Rx is a touchy subject, with often varying results.

I've had very successful (although frustrating, and tech glitch-filled) launches through Mercury Rx as well as ones that will go down in history as the.worst.launch.ever.

What determines this is a few things, while the sign that Mercury Rx is going through plays a big part (you can't pay me enough to launch through Mercury Rx in Cancer), what often defines the success of a marketing or launch venture through Mercury Rx (outside of having a good product, clear copy, aligned pricing, etc) is what houses it's moving through.

In your chart, you have private and public houses, and there are also houses that clearly are business-oriented and others that are more personal.

When to 'sit the bench'?

If Mercury Rx is going through your 8th- 12th houses, you may want to sideline your launch until after Mercury goes direct. The reason for this is that whatever does go sideways, often becomes a public spectacle, and can in some cases ruin our reputation, or make us look clumsy, disorganized, or otherwise cross

some communication signals with our community. Or we just may not be operating at our best,(I'm looking at you House 8 and House 12), and we may not be in a good mental space to be in the spotlight and running all the things. This also goes for Mercury Rx through your 4th house, we will just want to be couch potatoes and our home-life will be calling on a lot of attention, so it's best to not make it compete.

Some other things to consider are the sign that Mercury is Rxing through and the flavors and experiences that will bring.

Mercury Rx as a RE-builder -

Mercury rules commerce, communities, and connection.

My favorite usage for Mercury Rx is to give to my community and focus on community building projects, whenever we invest in our community and go back to things that have already been in motion, our investment becomes richer, and our community trusts us more. Want to build your list? Want a proper email funnel?

This is a great time to start doing that.

Get feedback and start filling in the gaps between where your clients are, and where they want to be with your content.

If you choose to launch during this time, make sure you cater it to the energy and needs of the retrograde, and that you are launching something that you've already had in motion (don't start new things during Rx)

Uranus Stations Direct (6°) (January 14 - August 19, 2021)

6 Taurus 43

When Uranus moves from retrograde to direct, we are being gifted the opportunity to act on those big, bold ideas and innovations that we've been marinating in.

This is a time to regain our bearings. Uranus has been retrograde since August 15, 2020, and has been not so politely nudging us to pay attention to our finances, how we go about earning, spending, and saving our moolah, so that we can create a more stable financial future for ourselves, especially during a time on the planet where there is a great deal of change.

It is asking us to not get distracted by the surface changes, to the algorithms on social media, or the next new platform feature, but rather how we create consistency, security, comfort, and long-term ness within financial and governmental structures no longer offer us the sense of safety that they once did. Uranus brings with it innovation, a rebelliousness that isn't interested in doing things 'the old way'. It doesn't like externally or socially imposed structures, it is here to help you form your own, oddly enough in the comfort-seeking nature of Taurus.

Taurus loves its food, it's home, it's friends, and keeping things kosher, and when it's met with change-agent Uranus, this area of our life is bound to see the most dramatic upgrades (which may feel like mini earthquakes)

What areas of your business have shifted over the past 6 months - a year?

Have you had financial sources dry up, or change?

Have you been compelled to create a new income source for yourself?

How can you create consistency during a time when there is so much inconsistency in our lives and society?

Uranus will remain in Taurus for the next 6 years. The last time that Uranus was in Taurus was post WW2, where new systems were created to ensure the welfare and balance for all, things like social welfare and standard work weeks. Necessary and important to the financial stability for both the family, community, and country's welfare.

As Uranus embarks upon its 5-year journey through Taurus what we can be sure of is that by 2025 the way you have looked at, used, and generated money, financial security, government, law, and growth will not look the same.

Mercury in Aquarius (January 8 - 30, 2020)

A Whole New Mind

Mercury in Aquarius highlights the search for knowledge, new ideas, new concepts, creative genius, problem-solving, with a focus on the greater aspect of humanity. It opens the doors to new inventions, connecting far-reaching thoughts, philosophies, religions, spirituality, world-changing, and often seemingly opposing ideas into a congruent and powerful collaboration. Ideas may arrive spontaneously to you at this time, or areas where you just have felt stuck, overwhelmed, or just not able to come up with a solution to a particular set of challenges may see some relief during this transit. We are more open to solving our problems and aren't as emotionally attached to them, or the outcome. Be open to the creative ways that ideas come to you at this time, and let your inner genius get to work.

Mars in Taurus (January 2 - March 3, 2021)

Slow & Steady Wins The Race

Hallelujah! Mars has left Aries after spending 6+ months in the sign it rules! We are ready to focus things down a couple of notches and take our foot off the gas. When Mars enters Taurus we can feel a burst of active but slower energy, determination, commitment, resistance, stubbornness, and possibly even conflict. Here we get to use Mars for our material and long-term gain. Taurus isn't in a rush and is willing to stick it out for the long-haul as long as it can see the benefits of doing so. Notice what you have at work right now, what are you

investing your time in most right now. Do you feel like you need to defend or hold on to your work, resources, or time? Channeling this energy into your material assets, and creating a feeling of safety, home and structure can be a very good use of this energy.

Jupiter conjunct Saturn in Aquarius

Cautious Practical Idealism

♃♄♒

Jupiter Conjunct Saturn 0 Aqu 29

If you've been hearing about 'The Grand Conjunction', this is it! When Jupiter conjuncts Saturn, it makes for a great deal of head scratching. Afterall, what happens when we combine a planet of such joy and optimism (Jupiter) with Saturn, a planet that so often connects us to cold realism? What happens when we combine the wisdom of optimism with the wisdom of pessimism? When considering this fusion of energies, it is important to remember to tolerate paradox. Since Jupiter and Saturn do come from such diametrically opposed areas of energy, we must remember that this does not preclude them from working together. In fact, it actually allows for an intriguing kind of complementarity and collaboration that we might call CPI: Cautious Practical Idealism. We are in CPI, we balance the energies of Jupiter with the energies of Saturn. We take our highest most expensive Aquarian ideals and boil them down to what they are today. Taking what they are today, we imbue them with a sense of expansivity. See how it works both ways? In what areas of your life could you benefit from CPI?

Another way of feeling into this conjunction is through the energy of dream storming. In dream storming, we use a traditional, Saturnian brainstorming model to inform a wider, cosmic reaching (Jupiter). Dreamstorming can take us anywhere, but we must not forget to eat, sleep and breathe. Dreamstorming is like practical daydreaming. From daily journaling to exercise to sewing, we are doing it all of the time. However you engage with this energy, know that it has the potential to teach you about energy work and I am not talking about hocus

pocus. When we work with energy, we mobilize our dreams, intentions, and aspirations by giving them a life of their own. When we write in energy, for example, we are really learning to emanate from our subconscious mind using a pen and a piece of paper. This is dream storming, a deeper engagement with your very own vibration. When we place this kind of work within a container of Cautious Practical Idealism, the world becomes our oyster even more than it already was. During this time, let CPI become your personal mantra as you step into new landscapes of meaning and purpose.

This is a time to explore how we can create stability, structure, discipline, and consistency alongside expansiveness, freedom, playfulness and fun.

How sometimes seemingly contradicting things can actually be mutually beneficial - like creating structure and a schedule so that you can feel free.

Like using play to create discipline and consistency.

Play with these seeming opposing ideals during this time, and notice that one can in fact open doors to the other, and that when we pair them together we grow at an expansive rate.

Jupiter in Aquarius (Dec 19, 2020)

Thinking Different

24 

In the late 90s, Apple adopted a simple yet powerful slogan: Think Different. In two words, Apple extended a challenge to a wide audience for adopting an ethos of alternativity. While Jupiter is in Aquarius, the cosmos are asking the same of you. Instead of rethinking the modern computer, though, Jupiter is asking you to examine the beliefs that you hold as parameters for perception. Yes, that's right. In astrology, a belief functions like a parameter for perception, an indirect input for the show we call reality and the story we call life. The way this works is pretty basic. It involves turning a common expression on its head. Instead of saying "I have to see it to believe it," during this time we can say: "I have to believe it to see it" because, in manifestation, we work backward from

our realized wish. If we can figure out which beliefs we have installed (first), and how they operate (second), then we will have successfully navigated Jupiter in Aquarius. If, on the other hand, we find ourselves second-guessing our beliefs or feeding into an unhealthy reality picture, then perhaps we have more work to do. During this time, the onus of belief identification is completely on us. After all, we are the ones who live inside our minds.

How do you plan to think differently? During this astrological moment, which beliefs are up for review? With Jupiter in Aquarius, we are being asked to renegotiate our relationship to manifestation itself, our ability to magnetize or attract that which we desire. If you feel like you are lacking in this area, perhaps it is time to strength test your belief (like a muscle test but for your soul). How badly do you desire what you desire? If I told you that your treasure is available but it is located at the top of a steep mountain, would you climb it? Remember, beliefs can be subtle. Everything from the assumptions you make on entering a Taxi to the faith you rely on when signing a business deal. Sometimes, belief is an ungrounded energy, a reaching for security or certainty. No matter the way belief shows up for us, we are in a space of review, curiosity, and understanding during this transit. Not only are we ready to think differently, but we are also taking the actionable steps to re-engineer our lives along these lines, from the immediate and the practical to the subtle and the energetic.

This is a time for re-invention, a time to think differently, to turn your industry on it's head and do it differently. It's really a time to re-invent the wheel, I mean why do we need wheels when we can fly?

Saturn in Aquarius (Dec 16 2020)

The Information Age

This transit will last for the next 2+ years. During this time we will see a surge in the sale and marketing of information, a disassembly of old traditional ways of education, marketing and media and an increase in innovation, discovery and new technology. We will also see an increased interest in Astrology, Psychology, and other consciousness-expanding tools, techniques, practices and systems.

This will be a period of great change. With this transit there will be a shift from personal interests and wants to what is best for the planet, humanity and the collective. We will see an even greater impact from our personal choices on the whole of the planet and all species. This will highlight the need for greater personal responsibility and initiating further change in regards to the environment, waste, public health, social supports, technology and the rules governing it and the impact of the 'economy' on global, personal and environmental health.

January 1962 - December 1964
February 6 1991 – January 8 1994

Saturn returns to each sign once every 29 or 30 years for approximately 3 years. Saturn was last in Aquarius from 2/1932 to 2/1935, 1/1962 to 12/1964, and from 2/1991 to 1/1994. Saturn will again be in Aquarius from December 17, 2020 (after a brief stay there from March 21 to July 1, 2020) through March 7, 2023.

Saturn Returns are periods of great change, challenges and adversity where we will feel the pressure to become more of our own person.

Chiron Direct in Aries [December 15, 2020]

Meeting Ourselves Where We Heal

When Chiron was retrograde, we were forced to slow down in our healing journeys. The purpose of this was to reconnect us with who we really are and the unique way that we are healing during this time. The more we can honour our individual path, the more at peace we will feel with the long standing wounds in our lives. The truth is, we are never really 'over something' but we can find new facets of ourselves and our own medicine with each revisit. Chiron reminds us of our tenacity, our ability to heal ourselves and to share that medicine with others, to transform otherwise difficult experiences through alchemy. When Chiron is in Aries it is a time of action, to walk our talk and to

enact real change in regards to our wounds. It is a time where we may impulsively react due to our wounds, so we will need to take pause before jumping in fully but it can also be a very powerful period to bring the wounds to the light. If there is something that you have experienced that you don't want someone else to go through this is a time to bring that cause to light. With Aries we're not messing around, we need to mobilize our healing, we need to create movements around it. It's a time to allow our anger and fury to become channeled into positive change in our world. To use our words and actions in an empowering way, to become the light. It is a period where we will no longer be silenced, and where we will allow our wound to help us to become who we are meant to be.

Neptune Direct in Pisces (November 28)

Connecting with Our Inner Universe

18 Degrees

Neptune is making its way through Pisces where it will remain until 2027. This Journey it is taking is quite extraordinary and only happens every 165 years.

Neptune in Pisces is here to connect us not only to our intuition but to our subconscious and to all of life on the planet. Neptune is the ruler of the seas (all water on earth) and Pisces is the fish that lives in them. Like a fish we don't notice our environment we aren't aware we're 'IN water' and yet without it, we would not be. All living beings on Earth need water and are made up of water to some extent. We are 70%+ water, and this transit is here to wake us up to who and what we are and the damage that is being done to the world around us. To help us question what is real (as Neptune also rules illusion and delusion) and the ways we have been lying to ourselves or believing the lies of the 'mainstream'. We have in many ways disconnected ourselves from all of life ignoring the way we are damaging the planet and how each choice we make every day has an impact, because we feel sad and depressed at the state of the world, it's problems feel too big to solve.

But when it comes to Neptune in Pisces the solution comes from within, to acknowledge our internal environment and discern the true from the false within us. To ask ourselves deeper questions and to receive the answers from within us.

TO remind us that WE are a part of this source, just like all drops of water are a part of the bigger ocean, we are not separate. Often when life and the state of the world becomes overwhelming we try to distract ourselves by focusing on things that cannot nourish us, that cannot fulfill the deep hunger and longing we have inside of us for meaning and healing, but with this transit we are being called within, to find our own nourishment and sustenance from within (rather than from outside of us which is contributing to the damage and harm we are seeing in our planet and world on all levels)

This is a time to cultivate your intuition, to listen to your dreams, and to work with yourself to dive deeper into understanding the mechanism and patterns you are repeating (Pisces is also the natural ruler of the 12th house, which is where we hide things from ourselves, and where our subconscious and trauma reside). The way to heal the planet is by more of us working with this unknown and often scary part of ourselves and bringing awareness and healing to it. This will create a ripple effect that has the power to change and heal the world to a magnitude that we cannot yet comprehend.

If you are feeling drawn to lean into your own intuition to use it in your work, to use it to work with clients, this is your nudge. The veil between you and source (your intuition) has never been thinner than it is right now.

Pluto Direct in Capricorn - (October 4, 2020 to April 21, 2020)

Letting Transformations Flow

22 - 24 degrees Capricorn

Pluto will remain in Capricorn until 2024, over the next 4 years we will see significant changes and transformations in all the areas that Capricorn rules such as governments, rules, foundations, regulations, currencies, economies, resources, money and legacies. This will not be a simple rebuilding or redesigning, the change will come through power struggles, the use of fear for control, uncovering the deep subconscious, and a willingness to surrender or risk great loss for a sense of purpose and meaning.

Pluto is here to help us transform ourselves, to find our purpose and to remind us that freedom should never be taken for granted. We may find great

conspiracies, abuses of power, and a need to stand up for rights (as rules and laws can be used as coercive measures by those wishing to gain more power and control).

This is a time where we are reminded of what's important to us, and that we cannot remain complacent for the things that are of real value.

Use these next 4 years to stand strong for what's important to you and to deeply inquire what you are willing to give up, sacrifice or surrender to live a life of real meaning and significance.
