INTERNATIONAL CONFERENCE ON THE HISTORY OF CHEMISTRY

ALMA MATER STUDIORUM
UNIVERSITÀ DI BOLOGNA

<u>ROUNDTABLE</u> SUBMISSION FORM*

Roundtables will be given a one-hour slot and accommodate ca. 4 to 6 panelists including the organiser. The conduct of the roundtable will be left to the organiser. To leave ample time for discussion between the roundtable participants and the audience however, panelists' presentations are expected to be kept short. Note that participation in a roundtable does not exclude submitting a paper or a poster.

The aim of the ICHCs is to foster dialogue and facilitate communication between different communities interested in the history of chemistry and the molecular sciences. Roundtables should therefore reflect this diversity by gathering panelists from different institutions, countries and projects. Gender and career stage balance is also strongly encouraged. Organisers may want to use a call for participants to mailing lists, particularly CHEM-HIST, to set up their sessions.
