- 3:40 devolver as a fun publisher
- 4:25 boi I sure am a fan of tencent and anti-blizzard

WEEK OF THE BEAST LORDS

PAT

5:11 playing lots of final fantasy. They put the PS5 rumble in and it's amazing. Small rumble on certain terrains, Every mount has a distinct rumble, can rumble when bars fill, the speaker can alert you to queues. The controller is loud

- 7:32 ps4 controller with xrd
- 8:22 sales announcement for endwalker: you cant buy it. Stop buying it. Games full. Go home. Cant even play the free trial.
- - 10:51 is the character creator up? Yes
- - 12:00 only wow had to do this before. And queues are equalizing. Comparing it to a restaurant
- - 13:39 servers can still get really bad in the evening. And are the people waiting to get in that makes up for the people that were stopped?
- - 15:34 giving out free days

17:27 watching 3 mel brooks movies. Men in tights, young frankenstein. Young frankenstein being weird

- 18:22 woolie watching men in tights with his family, only remembering the beginning
- 19:09 combining men in tights and the princes birde
- 19:33 the producers, a mel brooks musical. The origin of springtime for hitler

- 20:41 the first fart scene in history is thanks to mel brooks

- 21:10 the history of the world part 2

21:40 pat having a nightmare of a time trying to get rumble to work. Needing to put it directly into the usb port, no extenders

24:10 pat played solar ash. But first, some QA rumble testing with woolie

- 25:05 solar ash is good. It should have been called hyper light drifter. A combo of Hyper light drifter, shadow of the colossus, and jet set radio

26:49 He's streaming over at patstaresat~! Probably on christmas too due to omicron. No more final fantasy. Gonna play nih 2.

WOOLIE

28:11 more SMTV. The game picks up and goes SUPER hard after the castle

- 30:12 getting to the high end demons and pat wishes he was more into that game.
"Expiration dates are a lie" - woolie

31:30 blazblue rollback. It works. All the characters are here for central fiction.

34:10 DNF duel. How does dungeon fighter online become DNF? Now its dungeon n' fighters

- 35:25 DNF duel mechanics were a complete mystery until the beta

- 36:53 its got rollback. Its solid. Comparing to granblue fantasy vs.

- 38:19 the system: light, heavy, meterless specials, metered specials, block, hold back to block, throw. It can just replace granblue

- 40:39 no training mode for the beta

- 42:03 the servers being hammered, so you could then fight an NPC with a character you cant pick

- 44:04 cant pause at all, comparing to KOFXV's beta

- - 45:36 pat totally 100% talked to the DNF devs and they said the beta was free.

- 48:15 Saturday and sunday had better matches. The beta is unfinished.

- 50:48 reminder this is a test
- 52:44 checking out the cast. Woolie has once again found god with the crusader
- - 55:49 insane hammer loops and screen pressure
- 58:00 went back in sunday and saw some crazy shit.
- 58:51 crusader and grappler caught his attention. Grappler looks like a main character
- 59:43 wondering about the rest of the cast, seeing how it got translated to the game
- 1:01:35 how dirty can you get in a game like this?
- 1:02:31 saw spiderman: no way home. It was enjoyable. How much is it is "I recognize that thing" enjoyment over standing on its own?
- 1:03:58 people thought pat saw the movie. He did not. And woolie wondering about the new arc. Thinking they may pivot with X-men
- 1:06:14 the MCU somehow working through the legal nonsense
- 1:07:50 Dark souls continues. Getting lucky with the archers falling off and the dragon asses
- 1:09:46 the bed of chaos...
- 1:19:47 pat wonders how many bosses will be unfinished in elden ring. And G.R.R.M. on elden ring. So whens that next book old man?
- 1:12:22 a conclusion has been reached in dokapon. A trail ending in blood an salt over on woolieversus on twitch, twitter, and youtube! Best of metroid dread out along with get into fighting games! FFVI remake is soon, so in the meantime time to stall
- 1:14:28 woolie's probably streaming elden ring, and once again doing pre-recording videos
- 1:16:51 pat ate some chilli
