

Dear Hiring Team,

I am writing to express my strong interest in the WordPress Developer position. With over 8 years of web development experience—including a background at Accenture and extensive freelance work—I specialize in building secure, high-performing WordPress solutions from the ground up.

Your job description closely matches my core technical competencies. Over the last 6+ years, I have honed my skills in the exact areas you are looking for:

- Core Technologies: Deep expertise in PHP, MySQL, HTML5, CSS3, and JavaScript/jQuery to build dynamic, responsive applications.
- Custom WordPress Development: Proven ability to extend WordPress functionality through custom plugin development and complex integrations.
- Page Builders: Highly experienced in utilizing and customizing modern Page Builders to deliver pixel-perfect layouts efficiently.
- Security & Optimization: Committed to implementing strict WordPress security best practices, troubleshooting existing applications, and optimizing performance.

I am a proactive problem-solver who takes pride in writing clean, manageable code. I am fully comfortable with a Work From Office (WFO) setup and am eager to contribute to your team in Mumbai.

I have attached my resume for your review and would love the opportunity to discuss how my skills can bring immediate value to your projects. Thank you for your time and consideration.

Sincerely,

Sumit Tambe
