Half-day (2 hour) Professional Development Overview

Note: Registration will open on Tuesday, November 9th when the PD Catalog is sent to teachers.

Please take a few moments to review the schedule table below and your school's professional development start time as it relates to your school's start and end time for your school day (linked below). On the district-wide content days, there may not always be a session for every single role group. When this occurs, members of that role group may use that time to complete asynchronous professional learning activities or they can participate in development facilitated at the school level.

Structure and schedule for half-day district with professional development
