# KALAMAZOO INSTITUTE OF ARTS

## The Digital Darkroom

**Instructor: Kris Walker**
**Contact: kris.walker@kiarts.org or klw@kwalker-photo.com**

### Having these steps completed before the first class will ensure it runs smoothly and we can jump right in!

- You'll need Lightroom Classic and Photoshop downloaded onto your laptop. If you don't have an Adobe account, you can get started by going here and selecting the Photography Plan

- There are two versions of Lightroom. You want **Lightroom classic**. That is the desktop app and the one we'll use.

- Download this folder from Google Drive, these are the images we'll use for class: https://drive.google.com/drive/folders/1DZstNTTNxgTkRAppy0SCobKxKknBkH6F?usp=sharing

- This class covers both Lightroom and Photoshop, but both apps require a base level of computer literacy and computing power. Please reach out to me if you have any questions or concerns.
