Class Goals

Over the duration of the workshop students will learn about renewable energies related to solar power, electronics, climate change, and much more in preparation for building a KidWind solar project to enter into the Northern VA regional challenge.

Key Takeaways

New to Makersmiths? Parents, please fill out this waiver form for all youth under the age of 18 by following this link: <https://waiver.fr/p-NVPOj>

Class Structure

Kid Wind workshops may cover Middle School and High School age groups.
