Thinkpad T14S GEN 1 with an outer shell made from high-quality Carbon fiber - the main material manufactured in aviation should be highly durable and bring light weight. The entire laptop shell is covered in black, bringing the elegant beauty of a businessman. The Thinkpad logo engraved with high-grade silver aluminum stands out on a black background, still placed diagonally in the upper corner of the lid.

With a weight of 1.35kg and a compact 14-inch screen size, you can carry the device anywhere with ease.

Experience vivid images with sharp screen

**The Lenovo Thinkpad T14S will give you a voyeuristic work and entertainment experience with crisp, realistic images displayed through the 14-inch Full HD screen. IPS panels also offer extended viewing angles and better image contrast. Another advantage of the ThinkPad line is that the screen angle is extended to a 180-degree base, in particular, the machine is automatically turned on when opening the screen without pressing the power button.**

You will experience loud, clear sound thanks to the use of Dolby Advanced Audio technology. Combined with this technology is the surround sound simulation feature that gives you high sound quality, unleashing the enjoyment of extreme blockbuster movies with realistic sound like watching a movie in a theater.
