

Dear President Kathleen Passidomo and Speaker Paul Renner,

As faith leaders from diverse traditions, we are gravely concerned about the impacts of the companion bills SB 1718 and HB 1617. This legislation attempts to solve the nation's immigration crisis, but instead will cause a humanitarian disaster in Florida and wreak havoc in our economy. The legislation will unfairly target persons out of status and every sector of society that connects with them, including Florida houses of worship, schools, hospitals and businesses. The undersigned 72 faith leaders ask you to prevent this law from passing.

In our faith communities, our sacred scriptures tell us to welcome the immigrant in our midst and love our neighbors. We recall Leviticus 19:34 which states, "You shall treat the stranger who sojourns with you as the native among you, and you shall love him as yourself, for you were strangers in the land of Egypt: I am the Lord your God."

Florida's identity is as a place where immigrants find new life. Migration has made Florida into an economic powerhouse that showcases cultures from around the world. But if this legislation is adopted, its damage will send shockwaves across the country. Florida will be seen as the state that self-destructed over its fear of immigrants.

This bill attacks our religious freedom and criminalizes our ministries. We do not check for immigration status before we obey God in serving those in need. For the state to expect us to do so is for the state to demand we forsake our beliefs. SB 1718/HB 1617 would make it a felony to bring uninspected unaccompanied minors into the state; invalidate the use of driver licenses issued by other states to undocumented immigrants; invalidate community IDs; require Emergency Rooms to collect immigration status information for all patients; increase fines and penalties for hiring undocumented immigrants, and prevent DACA recipients from a license to practice law in Florida¹.

This legislation is anti-faith, anti-family, anti-health, and anti-safety. Many immigrant families are a mix of immigrant status. Elders and parents will be separated from their children. The mandate for hospitals to collect information on immigration status will cause a public health crisis with children and parents fearful to seek care. Parents will struggle to provide for their families and businesses will suffer from unjust fines and increased liabilities on employers. Witnesses to crimes will be unwilling to speak with police. The proof of citizenship elements will lead to profiling and disregard for basic rights of citizens based on "they look like an immigrant."

SB 1718/ HB 1617 will have a devastating impact on Florida and will be a divisive force among the people of our great state. As faith communities, our role is to promote the values of love, care for our neighbors, and peaceful unity among all. SB1718/HB 1617 does the opposite. We pray that our Florida legislature will do the right thing and stop SB 1718/HB 1617 from becoming law.
