*Victoria Thompson is a K-12 Education Strategist for CDW Education. She began her journey teaching fifth and sixth grade math and science in Summerville, SC. After completing her masters degree in curriculum and instruction she moved to the Seattle, WA area in 2018, where her career has pivoted to focusing on digital transformation, STEM integration in schools, technology in instruction, and using technology to bridge equity gaps in education. At Microsoft Education she works with folks across the country to develop foundational relationships with key technology stakeholders to enable quality solution delivery and support for schools and districts. She has managed the Microsoft Innovative Education Expert (MIE Expert) and Showcase School programs, growing the Expert community from 745 to 830 members in 2022. As a technology in education consultant she works with school districts across the world to address topics such as technology equity and capacity building with professional development, and has presented at conferences such as ISTE, FETC, TCEA, IDEAcn, ImpactEducation, CUE, and DigCitSummit on topics such as using technology to create inclusive math classrooms, the intersectionality of literacy and STEM, equity in instructional coaching, culturally responsive STEM education, and equity in educational technology. In 2023 she won the title of one of the [Top 10 Most Visionary Leaders in Education](#) by CIO Look Magazine. Additionally, she was recently awarded the title of [one of the top 30 K-12 IT influencers](#) in 2021 by EdTech Magazine and one of the [ISTE Top 20 to Watch](#) in 2023. She now lives in Winter Garden, FL with her wife, Kourtney, and their dog, Ren.*
