INFORMATION ABOUT THE ORGANIZATION

ORGANISATION	Foundation of Education and Social Dialogue "PRO CIVIS"
ADDRESS	Szkołna 36A PL 25-604 Kielce PL
TYPE OF PARTNER	NGO, Research institute
WEBSITE	ProC
CONTACT PERSON	Damian Kuznowicz
EMAIL	d.kuznowicz@procivis.org.pl
TELEPHONE	+48 600 435 424
DATE OF PUBLICATION	26.01.2026
SEARCHING FOR	Coordinator, Consortium, Project Partners

EXPERTISE OVERVIEW

TOPIC(S) OF INTEREST:

- HORIZON-CL6-2026-03-GOVERNANCE-02: Improving analytical capacity and understanding of social drivers in agriculture to better assess social sustainability in the sector
- HORIZON-CL6-2026-03-GOVERNANCE-09: Increasing knowledge flows to practice within AKIS via EU thematic knowledge hubs
- HORIZON-CL6-2026-02-CLIMATE-01: Towards more effective, fair and coherent policies for climate change mitigation and adaptation in agriculture and forestry

HEADLINE:

ProC is an agile NGO based in Poland (Widening Country). We are bridging the gap between advanced bio-based technologies, real-world implementation and local communities. has extensive experience in bioeconomy projects e.g. (Bio4HUMAN) - covering biobased solutions for humanitarian use, (BioBoosters) - circular transition through open-innovation models, (BIOBEC) - biotechnology-based education, and COST collaboration on NCWM in MAPs, alongside active involvement in CBE JU and co-founding of the Polish Bioeconomy Hub.

POTENTIAL CONTRIBUTION:

HORIZON-CL6-2026-03-GOVERNANCE-02

ProC can act as a bridge between high-level research and local rural reality:

- **Regional data collection and validation:** We specialize in collecting and transforming regional data. We have direct access to a network of rural municipalities and communes in Poland, providing the perspective of a widening country.
- **Decision making analysis:** We conduct multi-factoral SWOT analysis and gap analysis to understand the social drivers and barriers farmers face when adopting sustainable practices.

HORIZON-CL6-2026-03-GOVERNANCE-09

- **Polish Bioeconomy Hub:** ProC is co-founder of Polish Bioeconomy Hub – a virtual community of entities from research, academia, business, NGO's. Focusing on developing Polish Bioeconomy Roadmap – a baseline for future bioeconomy strategy.
- **Hackathon methodology:** We are an experienced organizer of Hackathons (BioBoosters methodology). We use these challenge-based events to force collaboration between startups, academia, and industry, effectively accelerating knowledge flows.
- **Education and capacity building:** Building on our role in the BIOBEC project (Bioeconomy Education Centres), we can lead tasks related to designing governance models for new knowledge hubs and ensuring their financial sustainability.
- **Ecosystem Connectivity:** We bridge the gap between advanced bio-based technologies and real-world implementation, ensuring that the "Thematic Knowledge Hubs" reach not just researchers, but local implementers, entrepreneurs and startups.

HORIZON-CL6-2026-02-CLIMATE-01

- **Policy and regulatory mapping:** We have internal capacity for conducting regulatory mapping and cost-benefit analyses (CBA). We have previously conducted comprehensive Gap Analysis Reports on waste management and bio-based implementations (e.g., BIO4HUMAN project). We identify regulatory bottlenecks that prevent farmers in Widening countries from adopting climate-smart forestry and agriculture.
- **Decision-supporting tools:** We transform regional data into decision-making tools for local authorities, ensuring policies are coherent with local development strategies.
