

Introduction to Vaccination

[Collected Information from Fall 23 Admits Messenger Group. Not a full guide]

Mr. Shouborno

Those who haven't taken MMR, Tdap, Hepatitis, etc. vaccines, please take as many doses as possible while you're in Bangladesh. Please encourage others to take them before going abroad (or even if they don't plan to go abroad, as some of these diseases are quite awful). You can complete them in the USA easily as your insurance provided by the university will cover them, but it's still much easier if you can take some of them while you're here. Here's the contact info of another doctor who is experienced with such stuffs:

Dr. Amir Sohail, House 75, Road 5/A, Satmasjid Road, Dhanmandi (01783892950, 01728726899)

Ms. Disha

Please check your school if they allow vaccine certificates from Bangladesh. UMD SPP has a policy of accepting certificates only from their health centers for some vaccinations.

I advice for icddr vaccination as it maintains international standards unlike other hospitals here. MMR vaccines available in icddr travelers clinic - costs 1000/dosages. There are 2 dosages.

Mr. Aniruddha

The two dose thing is very important. Miss hoye jaite pare beshi deri korle.

Usually vaccination chhara geleo university will arrange for you to be vaccinated, but it's a hassle and the question of what is covered by your insurance and getting your insurance set up initially can get complex. So desh theke timely shob diye jawai better.

Mr. Rejwanur

If anyone is living in Mirpur or near mirpur, you can go to Raadda MCH-FP at Mirpur 10

MMR 2 dose will cost you around 1820 tk. And meningitis ACWY will cost you around 3800 tk.

They provide the following vaccines in the photo.

IMMU

VACCINE	Date	1st Dose
Hepatitis-A হেপাটাইটিস-এ এর প্রতিরোধক	Due Date Given Date

Others		

Mr Istiaq

Gulshan United Hospital e MMR available also. There are other vaccines too. List website e deowa.

Mr Yeaseen

icddr,b te kora jaym 1000 tk. Gele oidin ekta dose,, 1month pore arekta..

Meningitis er vaccine one dose,, 5K nibe. Jodi deyar iccha thake MMR er dose er din e nite hbe. MMR nile er one month er moddhe r neya jabe na onno kichu.

TB skin test o same.. MMR neyar age korle result expected ashbe.. TB skin test er report 3 days lage.

TDap (tetanus diphtheria) 300 tk. MMR er dose er sathei neya jabe. Ekoi day te nite hbe.

Mr Shafiqul

T-Spot or Quantiferon Gold Blood testing is required. TB skin testing will not be accepted as tuberculosis screening.
