

EcoMUVE Presentation Planning Sheet

You will be graded on if each person in your group: (40 pts per person)

- presents at least 4 scientific explanations in the CER format.

Planning:

Parts of the story each person is in charge of explaining

Name:

	 C	 E	 R
1	cats affect the lizard population	IN the graph, when the cat population went up, the lizard population went down When I went to the world on July 23rd, I saw more cats and fewer lizards running round	Therefore, because there were more cats when there were fewer lizard, I know that cats are the predators of lizards in the food web
