- Captures a moment or a concept of doykeit/hereness/diasporism (a la Melanie Kaye/Kantrowitz)
- Portrait of a person, teacher, elder, movement leader related to anti-zionism, Jewish leftism, and Palestinian solidarity

YEARS OF RADICAL DREAMING

We're not just looking for art! We are seeking contributions to our list of important radical dates and historical events. Fill out this form with your ideas: [Radical Jewish Calendar History: Tell Us What to Include!](#)

We will let artists know by May if your art has been selected. Artists receive one free calendar and get paid! The exact amount depends upon sales, expenses, and the number of contributing artists. Last year, artists were paid \$500, including each artist that submitted on a team. Artists will be paid once the printing and shipping process is complete in the fall.

This year we will give 18% of calendar sales to Palestinian-led organizations and movement work.

We look forward to creating this with you! Please share this call, and reach out if you have any questions.
