

Open Education Network

Learning Circle Session One: What is Open Pedagogy?

Session Goals:

To provide a foundational understanding of open pedagogy to be expanded upon through activities that allow for a collaborative definition of open pedagogy.

To showcase what open pedagogy does as well as how it can be incorporated in the classroom through exposure to a variety of open pedagogy assignments.

Curricular Outcomes: Establish foundational definitions of open pedagogy and start building community.

Learning Objectives

In this session, participants will:

- ★ Collaboratively define open pedagogy
- ★ Identify themes among community definitions of open pedagogy
- ★ Build connections with other participants

Pework

Pework can be found in the [Canvas Course](#).

- ★ Read the [Open Pedagogy topic](#) page from Kwantlen Polytechnic University (4:30 minutes)
- ★ Watch the [Open Pedagogy video](#) from Kwantlen Polytechnic University (1:04 minutes)

Discussion

Participate in facilitated discussions and activities for this week's topic. These include Opening Activities, the week's Discussion, and the Closing Activities.

Reminders

Instructors please do the Pework for Week 2 and review the [Assignment Transformation](#) document.

Instructional Partners please do the Pework for Week 2 and review the [Learning Object Creation](#) document.
