The Most Advanced LASIK Center in Washington DC and the DMV is Here

The Most Advanced LASIK Center in Washington DC and the DMV is Here

Congratulations on taking your first step towards reclaiming your visual freedom! At Brusco Vision we encourage you to do your research before making the life-changing decision to free yourself from the burden of glasses and contact lenses. We want you to feel comfortable and confident with your choice to permanently regain your natural clear vision. It is our goal to address as many of your questions or concerns as possible before you proceed.

Not All LASIK is the Same.

Not All Surgeons Are the Same.

Dr. Michael Brusco, MD FACS, a graduate of Harvard College and Northwestern Medical School, is a premier LASIK surgeon and medical director of Brusco Vision in Washington DC and the DMV. Dr. Brusco has been at the leading edge of refractive surgery and always ensures that his patients benefit from the latest and best technological advances in diagnostics and laser procedures.

Over the past 15 years, he has helped tens of thousands of patients just like you finally say goodbye to their glasses and contact lenses in order to lead more independent and active lives. He has successfully performed surgery on professional athletes, teachers, military pilots, commercial airline pilots, engineers, optometrists, ophthalmologists – and everyone in between – to cure their blurry view of the world and regain autonomy and control of their vision.

LASIK Surgery has Reached New Heights of Success

Much like your phone has seen a progression in technology over the past twenty years, so too has LASIK surgery reached new heights of success. Rest assured, we use the most advanced technology and lasers – so precise it can etch sentences on a single strand of human hair. However, all this technology is of no use unless there is a highly skilled and experienced surgeon like Dr. Brusco analyzing, programming, and guiding the technology.

Company Description

Brusco Vision is a boutique-style laser vision correction and refractive surgical facility dedicated to one simple goal: helping you see better to live better.
