Phase 1 Completion Important Information

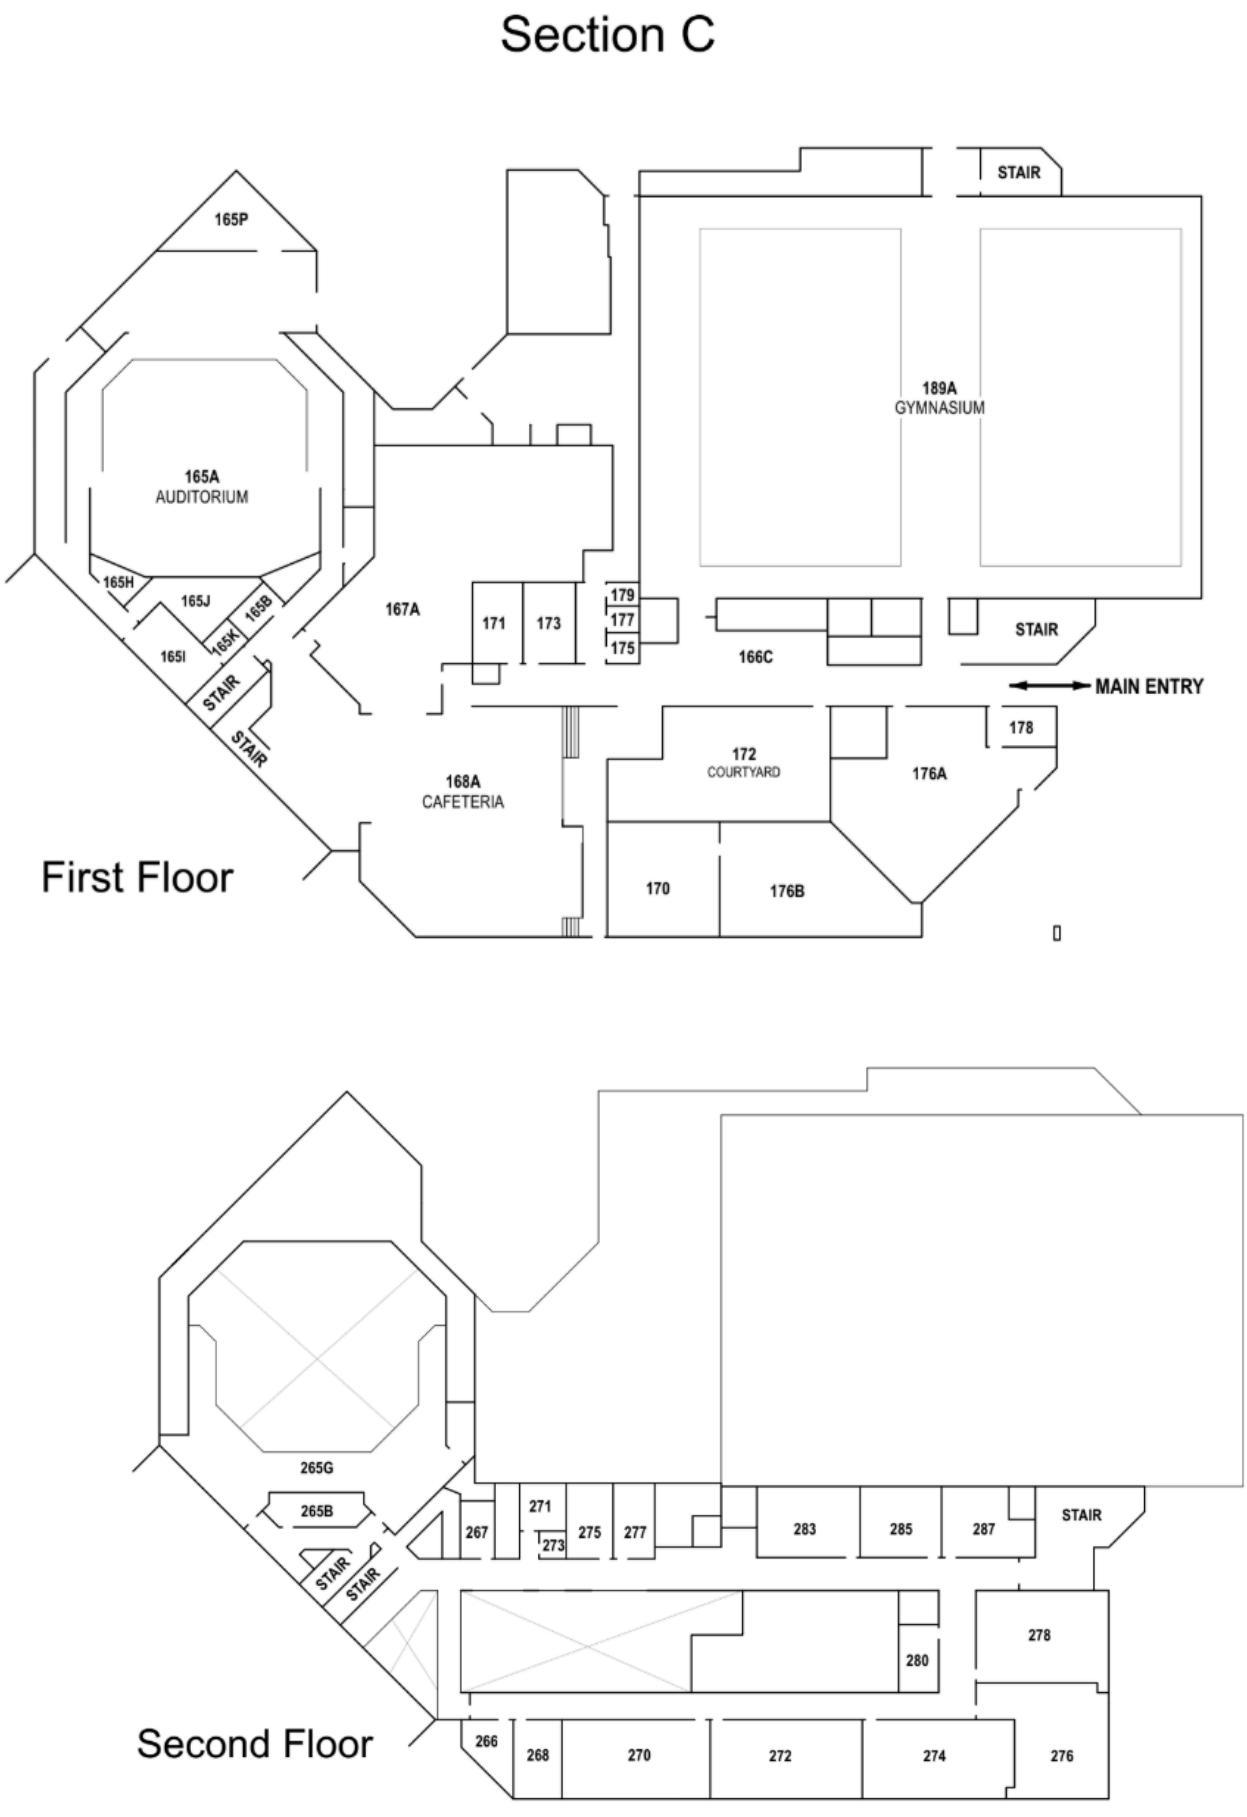

Student Drop Off/Pick Up - Buses will still be pulling into the loop to drop off and pick up students. Once off the bus students will walk along the sidewalk to the C section doors (nearest the outside basketball courts) and then enter the building. If parents are dropping off students, they will pull up in the left lane and let students out before they get to the C section doors. Staff will be assigned to these areas to assist.

Student Parking - Reminder that students can only park on campus IF they already have an assigned parking pass. There are no additional parking passes available at this time. IF you have a pass, you must park in the assigned area only (as labeled on the diagram below).

Entering/Exiting all Buildings -

Students will now be transitioning between 3 different buildings. In the morning, when students arrive at school they will enter into the end of C section (nearest the outside basketball courts). Students will transition into the cafeteria if they will be eating breakfast OR into the gymnasium if they are not

eating breakfast (with the exception of Monday, ALL students will enter the cafeteria). During transitions between classes, staff will be assigned to each door (end of A section, end of C section, and left side of the mobiles) when the bells ring so that they can let the students in. If students arrive late to school, they will enter into the new main office, which is now located to the left of the old cafeteria entrance. If students are being dismissed, parents will need to park in the assigned visitor parking spots at the entrance to the campus on the left hand side, and then enter the building at the new main office.

Student Bathrooms/Water Stations -
All student bathrooms will now be opened (A1 boys/girls and gender neutral, Mobile boys/girls and gender neutral, C1 boys/girls and gender neutral, and C2 boys/girls and gender neutral). Students will still be expected to correctly fill out a pass online in order to leave their classrooms. Students will be required to use the bathrooms/water stations within the buildings that they are currently in, passes to other buildings will not be accepted, unless they are to a specific staff member by appointment only. Students are expected to wait in the classrooms until their passes are accepted by the person at their destination. It is encouraged that students bring in an empty water bottle to fill with water during the day to have with them.
