

INFORMATION FOR AUTHORS

Wichcha Journal Nakhon Si Thammarat Rajabhat University (Wichcha J NSTRU)

Welcome to Authors

Thank you for considering **Wichcha Journal Nakhon Si Thammarat Rajabhat University (Wichcha J NSTRU)** as a venue for publishing your work.

Wichcha J NSTRU is a peer-reviewed, open-access journal that publishes high-quality research and academic articles in the fields of science and technology. All submitted manuscripts undergo a rigorous **double-blind peer review** process to ensure scientific quality, academic integrity, and fairness.

The journal is committed to promoting high standards of scholarly publishing and does **not charge any fees** for manuscript submission, peer review, or publication (**No Article Processing Charges; No APC**).

To facilitate an efficient editorial and peer review process, authors are encouraged to read the following information carefully before preparing and submitting their manuscripts.

Before You Submit

Before preparing your manuscript, please ensure that you have:

- Confirmed that your manuscript falls within the journal's aims and scope;
- Read the [Author Guidelines](#);
- Downloaded and used the latest Manuscript Template;
- Prepared the manuscript in accordance with the journal's formatting requirements;
- Obtained all required ethical approvals, where applicable;
- Obtained the agreement of all co-authors prior to submission; and
- Prepared all required submission files.

Required Submission Files

The following files must be submitted together with the manuscript.

Required File	Description
Manuscript	Prepared using the latest journal template.
Article Submission Form	Includes author information and required declarations.
Highlights	Three to five bullet points summarizing the novelty and main findings of the study.
Graphical Abstract	A concise visual summary of the study prepared in accordance with the journal requirements.
Supplementary Files	Optional, where applicable.

Detailed instructions for each submission file are provided in the corresponding templates and the [Author Guidelines](#).

Submission Preparation Checklist

Before submitting your manuscript, please confirm that:

- ☒ The manuscript is original, has not been published previously, and is not under consideration by another journal.
- ☒ All authors have read and approved the final version of the manuscript and meet the journal's authorship criteria.
- ☒ The manuscript has been prepared using the latest journal template and complies with the journal's formatting requirements.

- ☑ All references, tables, figures, and equations are complete, accurately formatted, and cited appropriately in the text.
- ☑ All required declarations (Ethical Approval, Funding, Conflicts of Interest, CRediT Authorship Contribution Statement, and Declaration of Generative AI Use, where applicable) have been completed.
- ☑ All required submission files have been prepared and are ready for submission.
- ☑ ORCID iDs have been provided for all authors, where available.
- ☑ All information provided during submission is complete and accurate.

Declaration by Authors

By submitting a manuscript to *Wichcha J NSTRU*, the corresponding author confirms on behalf of all authors that:

- The manuscript is original and has not been published previously;
- The manuscript is not under consideration by another journal;
- All authors have approved the submission and agree to its publication if accepted;
- All information provided during submission is complete and accurate;
- All applicable ethical requirements have been fulfilled; and
- The manuscript complies with the journal's editorial policies and publication ethics.

Keywords: Keyword 1; Keyword 2; Keyword 3; ...

(Provide 3–5 specific keywords in English, separated by semicolons.)

1. Introduction

(Briefly describe the background, rationale, research gap, and objectives of the study.)

Text.....

2. Materials and Methods

(Provide sufficient detail to allow the study to be replicated.)

Note:

Create equations using **Microsoft Word Equation Editor** or **MathType**. Equations should remain editable and be numbered consecutively throughout the manuscript using Arabic numerals in parentheses, with equation numbers aligned to the right margin. Define all symbols, variables, and abbreviations when they are first introduced or immediately after the equation, where appropriate. **Whenever possible, avoid converting editable equations into image files.** Follow the formatting illustrated in the example below.

The mean value was calculated using Equation (1).

$$\bar{x} = \frac{\sum_{i=1}^n x_i}{n} \quad (1)$$

where $\bar{x}$ is the sample mean, x_i is the observed value, and n is the number of observations.

3. Results and Discussion

(Present and discuss the findings logically. Avoid repeating the same information in both tables and figures.)

Note:

Create tables using the Microsoft Word table function. Tables should remain editable. Avoid vertical lines. Follow the formatting illustrated below.

Table 1. Statistical comparison of total sugar content in coated and uncoated durian peel during storage.

Treatment	Total Sugar g/100g			
	Day 0 (Initial)	Day 3	Day 6	Day 10
Uncoated (Control)	10.76±0.43 ^a	15.34±0.33 ^a	17.83±0.18 ^a	23.95±0.27 ^a
Beeswax-coated	10.84±0.59 ^a	14.82±0.16 ^b	17.22±0.45 ^a	20.96±0.58 ^b
ZnO-coated	10.82±0.53 ^a	13.55±0.39 ^c	16.78±0.25 ^b	21.67±0.40 ^b
Blank-coated	10.68±0.44 ^a	12.18±0.24 ^d	14.78±0.35 ^c	17.79±0.48 ^c

Note: Values are expressed as mean $\pm$ standard deviation ($n = 3$). Different letters within the same storage time indicate statistically significant differences among treatments according to Tukey's honestly significant difference (HSD) test ($p < 0.05$).

Note:

Embed figures as close as possible to their first citation. Figures should be numbered consecutively and have a minimum resolution of **300 dpi**. **Whenever possible, please provide figures in an editable format (e.g., Microsoft Excel, Origin, Adobe Illustrator, PowerPoint, or other editable source files).** Authors should avoid converting editable graphs or charts into image files when editable source files are available. The Editorial Office may adjust font styles, font sizes, colours, line weights, layout, and the placement of panel labels (e.g., (a), (b), (c)) to ensure consistency with the journal style without altering the scientific content or interpretation of the figure. *Follow the example below.*

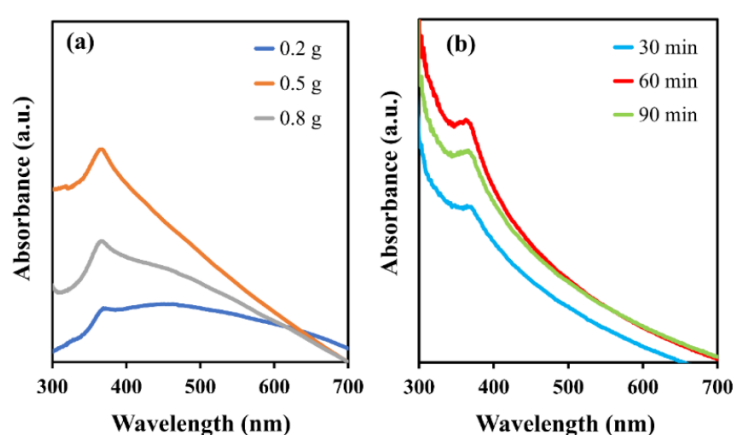

Figure 1. UV-Visible spectrum of optimization of green synthesized ZnO NPs; (a) optimization of *T. catappa* leaf extract (0.2, 0.5 and 0.8 g) and (b) optimization of sonication time (30, 60 and 90 min).

Declaration of Generative AI Use

(If generative AI or AI-assisted technologies were used in preparing the manuscript, please provide a declaration such as:

Example:

During the preparation of this manuscript, the authors used [name of AI tool] to improve the language and readability of the manuscript. The authors carefully reviewed and edited all AI-generated content and take full responsibility for the final version of the manuscript.

If no generative AI or AI-assisted technologies were used, authors may state:

"The authors declare that no generative AI or AI-assisted technologies were used in the preparation of this manuscript."

Ethical Approval

(Provide the name of the approving ethics committee (or IRB) and the approval number, where applicable.)

Example:

- ☐ Human Research: *This study was approved by the Human Research Ethics Committee, XXX University (Approval No. XXX).*
- ☐ Animal Research: *This study was approved by the Animal Ethics Committee, XXX University (Approval No. XXX)*

If ethical approval was not required or the study did not involve human participants, human data, human biological materials, or animals, authors should state: "*Not applicable.*"
