

iLEAD Online Spring Semester 2021 Due Dates by Site

iLEAD Online is so happy to be serving a wide variety of learners who come from many different schools. Because we work with many different sites, we want to be sure to clearly communicate with you so that you are aware of end dates and deadlines as we approach the end of the semester. All of our courses are paced to end on May 21st, but some of the sites we serve have confirmed earlier end dates. [HERE](#) are our suggested pacing guides. However, some learners may require an extension beyond that. In those cases, each site has set final due dates for learners to submit work. Each school's administrators have chosen these dates because they work with their school's calendar, allow facilitators enough time to complete grading and allow EFs/Coaches/Guides/ESs time to submit report cards. Please do not offer extensions beyond the dates listed below without admin approval. Facilitators will send coaches/Efs/Guides/ESs grade reports as learners complete work. If you have questions about your site's final due date, please reach out directly to your leadership team.
