

I am looking for a website that facilitates contacting one's Senators and Representatives by submitting one email or one phone call. It multiples the call or emails

There are several highly-regarded tools designed specifically to "multiply" your impact by letting you write one message and sending it to your entire congressional delegation at once.

Since each representative typically requires a separate form on their own website, these services act as a "router" to save you time.

Top Tools for Bulk Contacting Congress

Service	Best For	How It Works
Resistbot	Speed & Mobile	Text RESIST to 50409 . It finds your officials based on your ZIP code and delivers your text as a fax, email, or physical letter to your two Senators and House Representative.
Democracy.io	Web-Based Email	A non-partisan tool built by the Electronic Frontier Foundation. You enter your address, write one message, and it submits it to the official contact forms of all three of your federal representatives simultaneously.
5 Calls	Phone Calls	Focuses on calling. It provides the office numbers for your specific reps along with a researched script. While you still have to dial, it "multiplies" your efficiency by doing all the research for you.
Causes (formerly Countable)	App-Based	Allows you to "vote" on active bills. When you cast a "Yea" or "Nay,"

Service	Best For	How It Works
	Advocacy	the app can automatically send your stance and a personalized message to your representatives.

Why These Tools Are Effective

- **Verification:** These services ask for your address because members of Congress generally only prioritize messages from their own **constituents** (people living in their district/state).
- **Automation:** They bypass the tedious "CAPTCHA" and repetitive form-filling required on individual `.gov` websites.
- **Record Keeping:** Most of these tools will send you a confirmation once your message has been successfully delivered.

A Quick Tip on Impact

While "one-click" emails are great for high-volume issues, congressional staffers often note that **personalized** messages (even just adding one sentence about why the issue matters to you personally) are weighted more heavily than identical form letters.

Quick Tips for Calling

- **The Switchboard:** If you can't reach a specific office, you can call the **U.S. Capitol Switchboard** at **(202) 224-3121**. An operator will connect you to any office if you provide the representative's name.
- **Address Verification:** When calling or using web forms, be prepared to provide your full address. Congressional staff generally only log comments from confirmed constituents.
- **Time of Day:** D.C. offices are most active between **9:00 AM and 5:00 PM EST** (6:00 AM – 2:00 PM PST). If you call after hours, you can usually leave a voicemail.
