AI Powered Book Writing & Book Marketing Course

Do you know, why readers don't read your books? Or leave it reading halfway?

Because they don't resonate with kind of english you use in your book. They might think your english are not native to theirs.

Most of english readers are from countries where their main language is English. So it is normal for them to expect book language at their level of understanding.

Imagine if you can write english which resonate with theirs. You can use proper phrases and slang that are normal for them. Then your writing will make more sense to them and they will want to read more of your books.

Now, imagine you can speed up your book writing process with AI. And it can only possible when you know how can you use AI in a best possible way for your book writing process.

Now if you say, I struggle in marketing of book, so I will not able to sell much copies of it. Then let me tell you that this course can provide atleast 5 important marketing tools that can show you result in just 10 days.

Take this course and write in language that resonte with your audience, speed up your writing process with AI, and win the marketing mountain, so that you can sell more copies of your books faster than ever before.

This course is priced \$\$\$\$ but as early bird discount I am offering it in \$\$\$ for first 20 seats.
