This is Leveraged. (valvearg.com founder) If there is ever to be another ARG, I have full faith in the Valve fan community. I firmly believe there is no puzzle unsolvable by this kind of determined tenacity to find connections... even when there is literally no connection to be made.

I'll just leave this here <https://twitter.com/CThursten/status/349694775475175424> - I haven't even jumped into chat since there is nothing going on. (By the way, that's the official valvearg stance right now.)

Both Chet and Marc email confirmation that NOTHING is going on:
