terminal, green gang

nazbol andrew yang

V: five dudes in vienna

in history, they are gonna

make a name for themselves

and kill everyone else

V:Motherfucking therapist

Rather stressed artist

Stalin, Tito, Trotsky

Why do the last two have a key

C: we didn't start the comrades

or ferdinand's murder

or the discord server

we didn't start the comrades

but when the memes persisted

how could we resist it?

LC: we didn't start the comrades

but our sanity's gone

and we're just memeing on
and on
and on
and on

V: historymemes made a post
then some people were provoked
to make a sitcom parody
Russian past primarily

V: Some autists mess around
conversation goes unbound
other topics soon include
everything from nice to lewd

V: Wide trot, Scat cat
"Is the script done yet?"
Jreg fans in the chat
But not kento he's a brat

C: We didn't start the fire
Because Tsarshrek killed us
Mod meetings were not a plus
We didn't start the fire
When the budget's zero
No shock that's all we wrote (or "No animators it appears so")

C: We didn't start the green gang
It was always with us
Since the show has hit us
We didn't start the the green gang
Oh no we didn't coin it
But we want to join it
