- Ask students to log on to Paper and start a Live Help session with a tutor.
- Have students send their vocabulary list to the tutor and ask them to send either the terms or definitions back to the student one at a time
- After working through the list, the tutor should then send sentences with missing vocabulary words so the student can fill it in with the correct word.
- The student will respond with either the term or definition, depending on which was sent to them, and will fill out their sheet as they go.
- As they match the terms and definitions, the students will also create a sentence that uses the vocabulary word correctly.
