

Instructions for sharing photos from the Williamsburg reunion

We've created 2 shared albums, one in iPhone Photos and one in Google Photos. You can use either, or you can text or email photos to Steve. You can use any of those 3 methods to share/upload photos. After the weekend, we will make sure all photos are posted in each of the shared albums plus in a shared Dropbox folder.

For iPhone users

1. Join the shared album "Uppercus in Williamsburg"
 - a. Give Steve your email or cell phone. He will invite you to join
 - b. You will NOT receive a text or email notification. Instead, you will need to open the Photos app on your phone to see the invite
 - c. Open the Photos app on your phone. In the app, at the bottom, you'll see 4 icons
 - d. Second from the left is "For You." That icon should have a red notification bubble
 - e. Click that icon and accept the invitation
 - f. Now when you go to "Albums," under "Shared Albums" you will see "Uppercus in Williamsburg" with all the photos that have been shared so far
2. Take photos
3. Share the photos
 - a. Select 1 or multiple photos
 - b. Click the "share" icon (the box with the up arrow)
 - c. Select "Add to Shared Album" (you might need to scroll down), select the shared album "Uppercus in Williamsburg," and click "Post"

For Android users

1. Join the shared album "Uppercus in Williamsburg"
 - a. Give Steve your email or cell phone. He will invite you to join
 - b. You will NOT receive a text or email notification. Instead, you will need to open the Google Photos app on your phone to see the invite
 - c. Open the Google Photos app on your phone
 - d. Click the "Sharing" icon at the bottom; you will see "Uppercus in Williamsburg" with all the photos
2. Take photos
3. Share the photos
 - a. Go to the album "Uppercus in Williamsburg"
 - b. Click "Add photos"
 - c. Select the photos you want to add

Or, text/email photos

Send to Steve (contact info below)

After the weekend: View/download via Dropbox
